CONTENTS

APPENDIX A - EXISTING TURNING MOVEMENT COUNTS	104
APPENDIX B - EXISTING 24 HOUR COUNTS	192
APPENDIX C - SPEED CHARTS	260
APPENDIX D - ORIGIN / DESTINATION MATRIX	277
APPENDIX E - VARIOUS STUDIES AND PLANS	280
APPENDIX F - FUTURE DEVELOPMENTS AND PROJECTS	289
APPENDIX G - IH 45 INTERCHANGES	323
APPENDIX H - PUBLIC INVOLVEMENT	327

APPENDIX A:
EXISTING TURNING MOVEMENT COUNTS

APPENDIX

Number	Study Intersection	TMC			
1	College Park Dr/SH 242 at Gosling Rd	Peak 6:30-8:30/4:30 - 6:30	44	Riley Fuzzell Rd at Rayford Rd	Peak 6:30-8:30/4:30 - 6:30
2	FM 1488 at College Park Dr/SH 242	Peak 6:30-8:30/4:30 - 6:30	45	Riley Fuzzell Rd at Birnham Woods Dr	Peak 6:30-8:30/4:30 - 6:30
3	FM 1488 at FM 2978	Peak 6:30-8:30/4:30 - 6:30	46	Riley Fuzzell Rd at Discovery Creek	Peak 6:30-8:30/4:30 - 6:30
4	FM 1488 at NB IH 45	Peak 6:30-8:30/4:30 - 6:30	47	Robinson Rd at Hanna Rd	Peak 6:30-8:30/4:30 - 6:30
5	FM 1488 at SB IH 45	Peak 6:30-8:30/4:30 - 6:30	48	Robinson Rd at Hanna Rd	Peak 6:30-8:30/4:30 - 6:30
6	FM 2978 at Hufsmith Kuykendahl Rd	Peak 6:30-8:30/4:30 - 6:30	49	Robinson Rd at NB IH 45	Peak 6:30-8:30/4:30 - 6:30
7	Gosling Rd at Creekside Forest Dr	Peak 6:30-8:30/4:30 - 6:30	50	S Panther Creek Dr at Glen Loch Dr	Peak 6:30-8:30/4:30 - 6:30
8	Gosling Rd at Flintridge Dr	Peak 6:30-8:30/4:30 - 6:30	51	Sawdust Rd at Sawmill Rd	Peak 6:30-8:30/4:30 - 6:30
9	Gosling Rd at Lake Woodlands Dr	Peak 6:30-8:30/4:30 - 6:30	52	SH 242 at FM1314/Conroe Porter Rd	Peak 6:30-8:30/4:30 - 6:30
10	Gosling Rd at Research Forest Dr	Peak 6:30-8:30/4:30 - 6:30	53	SH 242 at Interstate 45 NB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30
11	Gosling Rd at West Rayford Rd	Peak 6:30-8:30/4:30 - 6:30	54	SH 242 at Interstate 45 SB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30
12	Gosling Rd at Woodlands Pkwy	Peak 6:30-8:30/4:30 - 6:30	55	Six Pines at Lake Robbins Dr	Peak 6:30-8:30/4:30 - 6:30 & SAT peak 11:30 - 1:30
13	Greenbridge Dr at College Park Dr/SH 242	Peak 6:30-8:30/4:30 - 6:30	56	Tamina Rd at David Memorial Dr	Peak 6:30-8:30/4:30 - 6:30
14	Grogans Mill Rd at Research Forest EB	Peak 6:30-8:30/4:30 - 6:30	57	Tamina Rd at Interstate 45 NB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30
15	Grogans Mill Rd at Research Forest WB	Peak 6:30-8:30/4:30 - 6:30	58	Woodlands Pkwy at S Panther Creek Dr	Peak 6:30-8:30/4:30 - 6:30
16	Grogans Mill Rd at Sawdust Rd	Peak 6:30-8:30/4:30 - 6:30	59	Woodlands Pkwy at SB IH 45	Peak 6:30-8:30/4:30 - 6:30
17	Grogans Mill Rd at Sawmill Dr	Peak 6:30-8:30/4:30 - 6:30	60	Woodlands Pkwy at Six Pines Dr	Peak 6:30-8:30/4:30 - 6:30
18	Grogans Mill Rd at Woodlands Pkwy	Peak 6:30-8:30/4:30 - 6:30	61	Woodlands Pkwy at Woodloch Forest Dr	Peak 6:30-8:30/4:30 - 6:30
19	Hanna Rd/Richard Rd at Richard Rd	Peak 6:30-8:30/4:30 - 6:30	62	Woodson Rd at Oak Ridge School Rd/Hanna Rd	Peak 6:30-8:30/4:30 - 6:30
20	IH 45 SBFR at Mall Entrance	Peak 6:30-8:30/4:30 - 6:30	24 Hour Counts		
21	Imperial Oaks Blvd at Northridge Forest Dr	Peak 6:30-8:30/4:30 - 6:30	1	Aldine Westfield Rd, north of Rayford Rd	24 Hour
22	Interstate 45 Frontage Rd at Rayford Rd	Peak 6:30-8:30/4:30 - 6:30	2	Birnham Woods Dr, north of Riley Fuzzell Rd	24 Hour
23	Interstate 45 Frontage Rd at Sawdust Rd	Peak 6:30-8:30/4:30 - 6:30	3	Fox Run Blvd, north of Riley Fuzzell Rd	24 Hour
24	Kuykendahl Rd at Creekside Forest Dr	Peak 6:30-8:30/4:30 - 6:30	4	Grogans Mill Rd, north of Research Forest Dr	24 Hour
25	Kuykendahl Rd at FM 1488	Peak 6:30-8:30/4:30 - 6:30	5	Hanna Rd, south of Robinson Rd	24 Hour
26	Kuykendahl Rd at Research Forest Dr	Peak 6:30-8:30/4:30 - 6:30	6	Imperial Oaks Blvd, north of Rayford Rd	24 Hour
27	Kuykendahl Rd at Lake Woodlands Dr	Peak 6:30-8:30/4:30 - 6:30	7	Lake Woodlands Dr, east of IH 45	24 Hour
28	Kuykendahl Rd at Woodlands Pkwy	Peak 6:30-8:30/4:30 - 6:30	8	Oak Ridge School Rd, front of high school	24 Hour
29	Lake Woodlands Dr at Interstate 45 NB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30	9	Rayford Rd, near Oakhurst Dr	24 Hour
30	Lake Woodlands Dr at Interstate 45 SB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30	10	Rayford Rd, north of Riley Fuzzell Rd	24 Hour
31	Lake Woodlands Dr at Grogans Mill Rd	Peak 6:30-8:30/4:30 - 6:30 & Sat Peak 11:30 - 1:30	11	Richard Rd, north of Rayford Rd	24 Hour
32	Lake Woodlands Dr at Lake Front Cir	Peak 6:30-8:30/4:30 - 6:30 & Sat Peak 11:30 - 1:30	12	Riley Fuzzell Rd, south of Fox Run Blvd	24 Hour
33	Lake Woodlands Dr at Mall Entrance	Peak 6:30-8:30/4:30 - 6:30 & Sat Peak 11:30 - 1:30	13	Robinson Rd, east of Patsy Ln	24 Hour
34	Lake Woodlands Dr at Pinecroft Dr	Peak 6:30-8:30/4:30 - 6:30 & Sat Peak 11:30 - 1:30	14	Tamina Rd, East of David Memorial Dr	24 Hour
35	Lake Woodlands Dr at Six Pines Dr	Peak 6:30-8:30/4:30 - 6:30 & Sat Peak 11:30 - 1:30	15	Vision Park Blvd, west of IH 45	24 Hour
36	Main St at Sleeping Hollow Rd	Peak 6:30-8:30/4:30 - 6:30	16	Wellman Rd, west of IH 45	24 Hour
37	Patsy Ln/Westwood Dr at Robinson Rd	Peak 6:30-8:30/4:30 - 6:30	17	Woodson Rd, near IH 45 NB Frontage Rd	24 Hour
38	Rayford Rd at Aldine Westfield Rd	Peak 6:30-8:30/4:30 - 6:30	Travel Time Stations		
39	Rayford Rd at Imperial Oaks Blvd	Peak 6:30-8:30/4:30 - 6:30	1	Aldine Westfield Rd at Elan Blvd	travel time
40	Rayford Rd at Richard Rd	Peak 6:30-8:30/4:30 - 6:30	2	College Park Dr/SH 242 at Gosling Rd	travel time
41	Research Forest Dr at Branch Crossing Dr	Peak 6:30-8:30/4:30 - 6:30	3	FM 1488 at College Park Dr/SH 242	travel time
42	Research Forest Dr at Green Bridge Dr	Peak 6:30-8:30/4:30 - 6:30	4	FM 2978 at FM 1488	travel time
43	Research Forest Dr at Interstate 45 SB Frontage Rd	Peak 6:30-8:30/4:30 - 6:30	5	FM 2978 at Woodlands Pkwy	travel time
			6	IH 45 at FM 1488	travel time

APPENDIX

7	IH 45 at FM 2920	travel time	12	IH 45 at Rayford Rd	Weekday AM/PM Peak, SAT Noon 1-2 Min
8	IH 45 at Kuykendahl Rd	travel time	13	IH 45 at Research Forest Dr	Weekday AM/PM Peak 1-2 Min
9	IH 45 at Sawdust Rd	travel time	14	IH 45 at SH 242	Weekday AM/PM Peak, SAT Noon 1-2 Min
10	IH 45 at SH 242	travel time	15	IH 45 at Shopping Center	Sat Noon 0.5-1 Min
11	IH 45 at Tamina Rd	travel time	16	IH 45 at Shopping Center East	Sat Noon 0.5-1 Min
12	Kuykendahl Rd at Gosling Rd	travel time	17	IH 45 at Tamina Rd	Sat Noon 0.5-1 Min
13	Kuykendahl Rd at Hufsmith Kuykendahl Rd	travel time	18	IH 45 at Woodlands Pkwy	Weekday AM/PM Peak, SAT Noon 1-2 Min
14	Rayford Rd at Imperial Oaks Blvd	travel time	19	Kuykendahl Rd at Flintridge Dr	Weekday AM/PM Peak 0.5-1 Min
15	Research Forest Dr at Gosling Rd	travel time	20	Lake Woodlands Dr at Gosling Rd	Weekday AM/PM Peak 0.5-1 Min
16	Research Forest Dr at Grogans Mill Rd	travel time	21	Lake Woodlands Dr at Grogans Mill Rd	Weekday PM Peak, Sat Noon 0.5-1 Min
17	Riley Fuzzell Rd at Elan Blvd	travel time	22	Lake Woodlands Dr at Kuykendahl Rd	Weekday AM/PM Peak 0.5-1 Min
18	Riley Fuzzell Rd at Fox Run Blvd	travel time	23	Lake Woodlands Dr at Shadowbend Pl	Weekday PM Peak 0.5-1 Min
19	Riley Fuzzell Rd at Hardy Toll Rd	travel time	24	Rayford Rd at Aldine Westfield Rd	Weekday AM/PM Peak 0.5-1 Min
20	Robinson Rd at Hanna Rd	travel time	25	Rayford Rd at Imperial Oaks Blvd	Weekday AM/PM Peak 0.5-1 Min
21	SH 242 at Lazy River Rd	travel time	26	Rayford Rd at Richard Rd	Weekday AM/PM Peak, SAT Noon 0.5-1 Min
22	Sleepy Hollow Rd at Pin Oak Rd	travel time	27	Research Forest Dr at Gosling Rd	Weekday PM Peak 0.5-1 Min
23	Tamina Rd at Main St	travel time	28	Research Forest Dr at Grogans Mill Rd	Weekday AM Peak, Sat Noon 0.5-1 Min
24	Woodlands Pkwy at Gosling Rd	travel time	29	Research Forest Dr at Pincroft Dr	Sat Noon 0.5-1 Min
25	Woodlands Pkwy at Grogans Mill Rd	travel time	30	Research Forest Dr at Six Pines Dr	Sat Noon 0.5-1 Min
26	Woodlands Pkwy at IH 45	travel time	31	Riley Fuzzell Rd at Birnham Woods Dr	Weekday PM Peak 0.5-1 Min
27	Woodlands Pkwy at Kuykendahl Rd	travel time	32	Riley Fuzzell Rd at Fox Run Blvd	Weekday AM/PM Peak 0.5-1 Min

Additional Travel Time Stations

28	Lake Woodlands Dr at Gosling Rd	travel time	33	Riley Fuzzell Rd at Rayford Rd	Weekday PM Peak 0.5-1 Min
29	Lake Woodlands Dr at Grogans Mill Rd	travel time	34	Robinson Rd at Hanna Rd	Sat Noon 0.5-1 Min
30	Lake Woodlands Dr at Kuykendahl Rd	travel time	35	Robinson Rd at Shopping Center	Sat Noon 0.5-1 Min
31	Lake Woodlands Dr at NB IH 45	travel time	36	Sawdust Rd at Budde Rd	Sat Noon 0.5-1 Min
32	Lake Woodlands Dr at SB IH 45	travel time	37	Sawdust Rd at Grogans Mill Rd	Sat Noon 0.5-1 Min
33	Rayford Rd at IH 45	travel time	38	Sawdust Rd at Sawmill Rd	Weekday AM Peak 0.5-1 Min
34	Research Forest Dr at IH 45	travel time	39	Woodlands Pkwy at Gosling Rd	Weekday AM Peak 0.5-1 Min
35	Tamina Rd at IH 45	travel time	40	Woodlands Pkwy at Kuykendahl Rd	Weekday AM/PM Peak 0.5-1 Min
36	Woodlands Pkwy at NB IH 45	travel time	41	Woodlands Pkwy at Six Pines Dr	Weekday AM/PM Peak, SAT Noon 0.5-1 Min
37	Woodlands Pkwy at SB IH 45	travel time	42	Woodlands Pkwy at Woodloch Forest Dr	Weekday AM/PM Peak, SAT Noon 0.5-1 Min

Helicopter Videos

1	College Park Dr/SH 242 at Gosling Rd	Weekday PM Peak 0.5-1 Min
2	College Park Dr/SH 242 at Greenbridge Dr	Weekday AM/PM Peak 0.5-1 Min
3	Grogans Mill Rd at Sawdust Rd	Weekday AM/PM Peak 0.5-1 Min
4	Grogans Mill Rd at Sawmill Rd	Weekday AM Peak 0.5-1 Min
5	Hanna Rd at Robinson Rd	Weekday AM/PM Peak 0.5-1 Min
6	Hardy Toll Rd at Riley Fuzzell Rd	Weekday AM/PM Peak 0.5-1 Min
7	IH 45 at Briar Rock Rd, Rayford Forest Ln	Sat Noon 0.5-1 Min
8	IH 45 at Ed English Dr	Sat Noon 0.5-1 Min
9	IH 45 at FM 1488	Weekday AM/PM Peak 1-2 Min
10	IH 45 at Hardy Toll Rd	Weekday PM Peak 0.5-1 Min
11	IH 45 at Lake Woodlands Dr	Weekday AM/PM Peak 1-2 Min

APPENDIX E:
VARIOUS STUDIES AND PLANS

JC JONES & CARTER, INC.
ENGINEERS • PLANNERS • SURVEYORS
Texas Board of Professional Engineers Registration No. F-439
8701 New Trails Dr., Ste. 200 The Woodlands, Texas 77381 (281) 363-4039

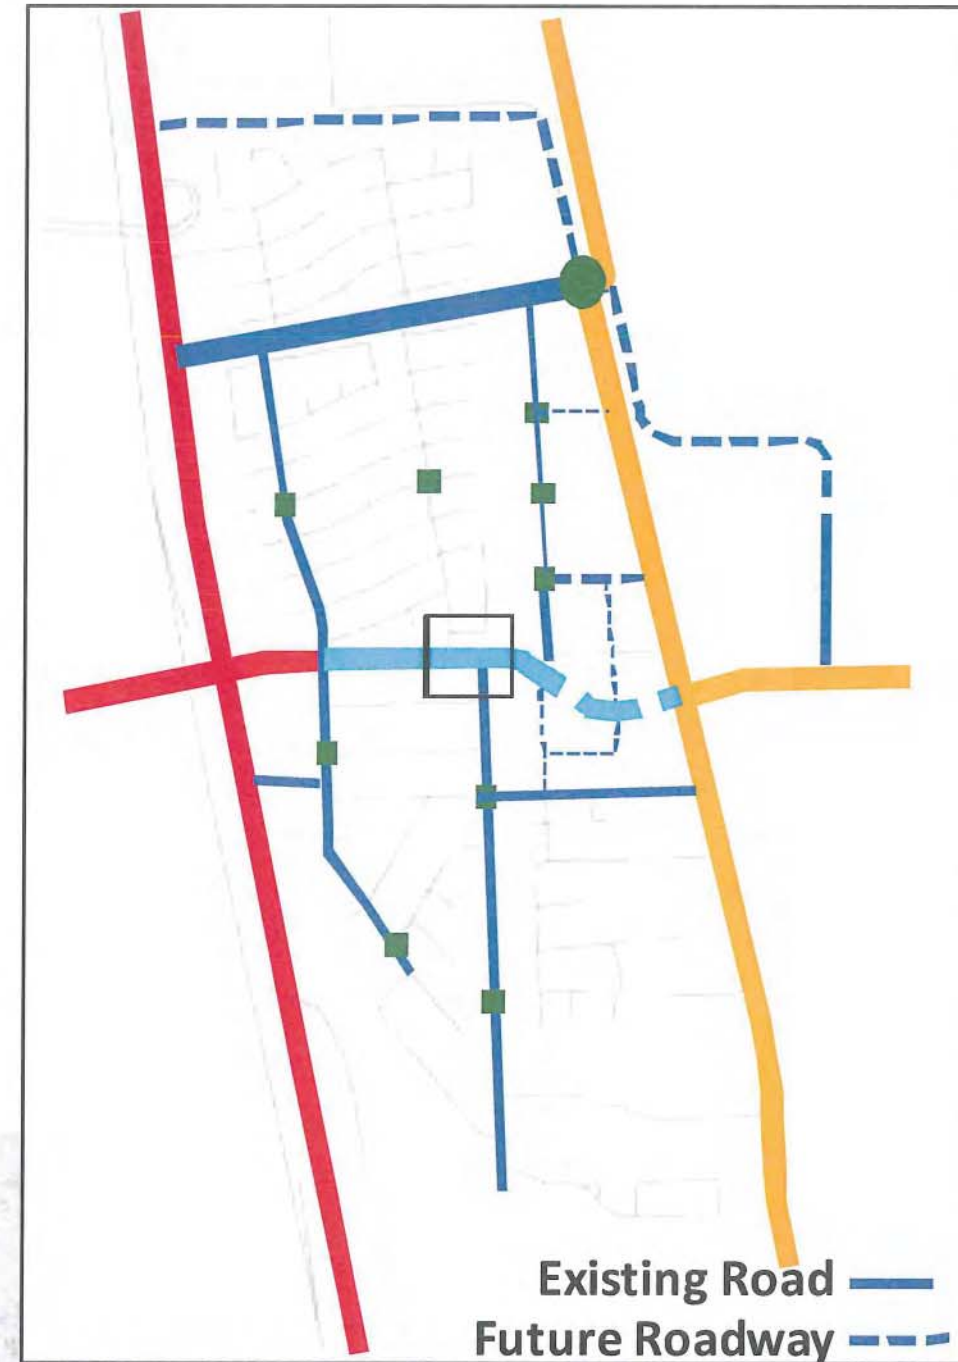

CITY OF OAK RIDGE NORTH
MONTGOMERY COUNTY, TEXAS

DIVERGING DIAMOND INTERCHANGE
ROBINSON ROAD - PLANNING LAYOUT

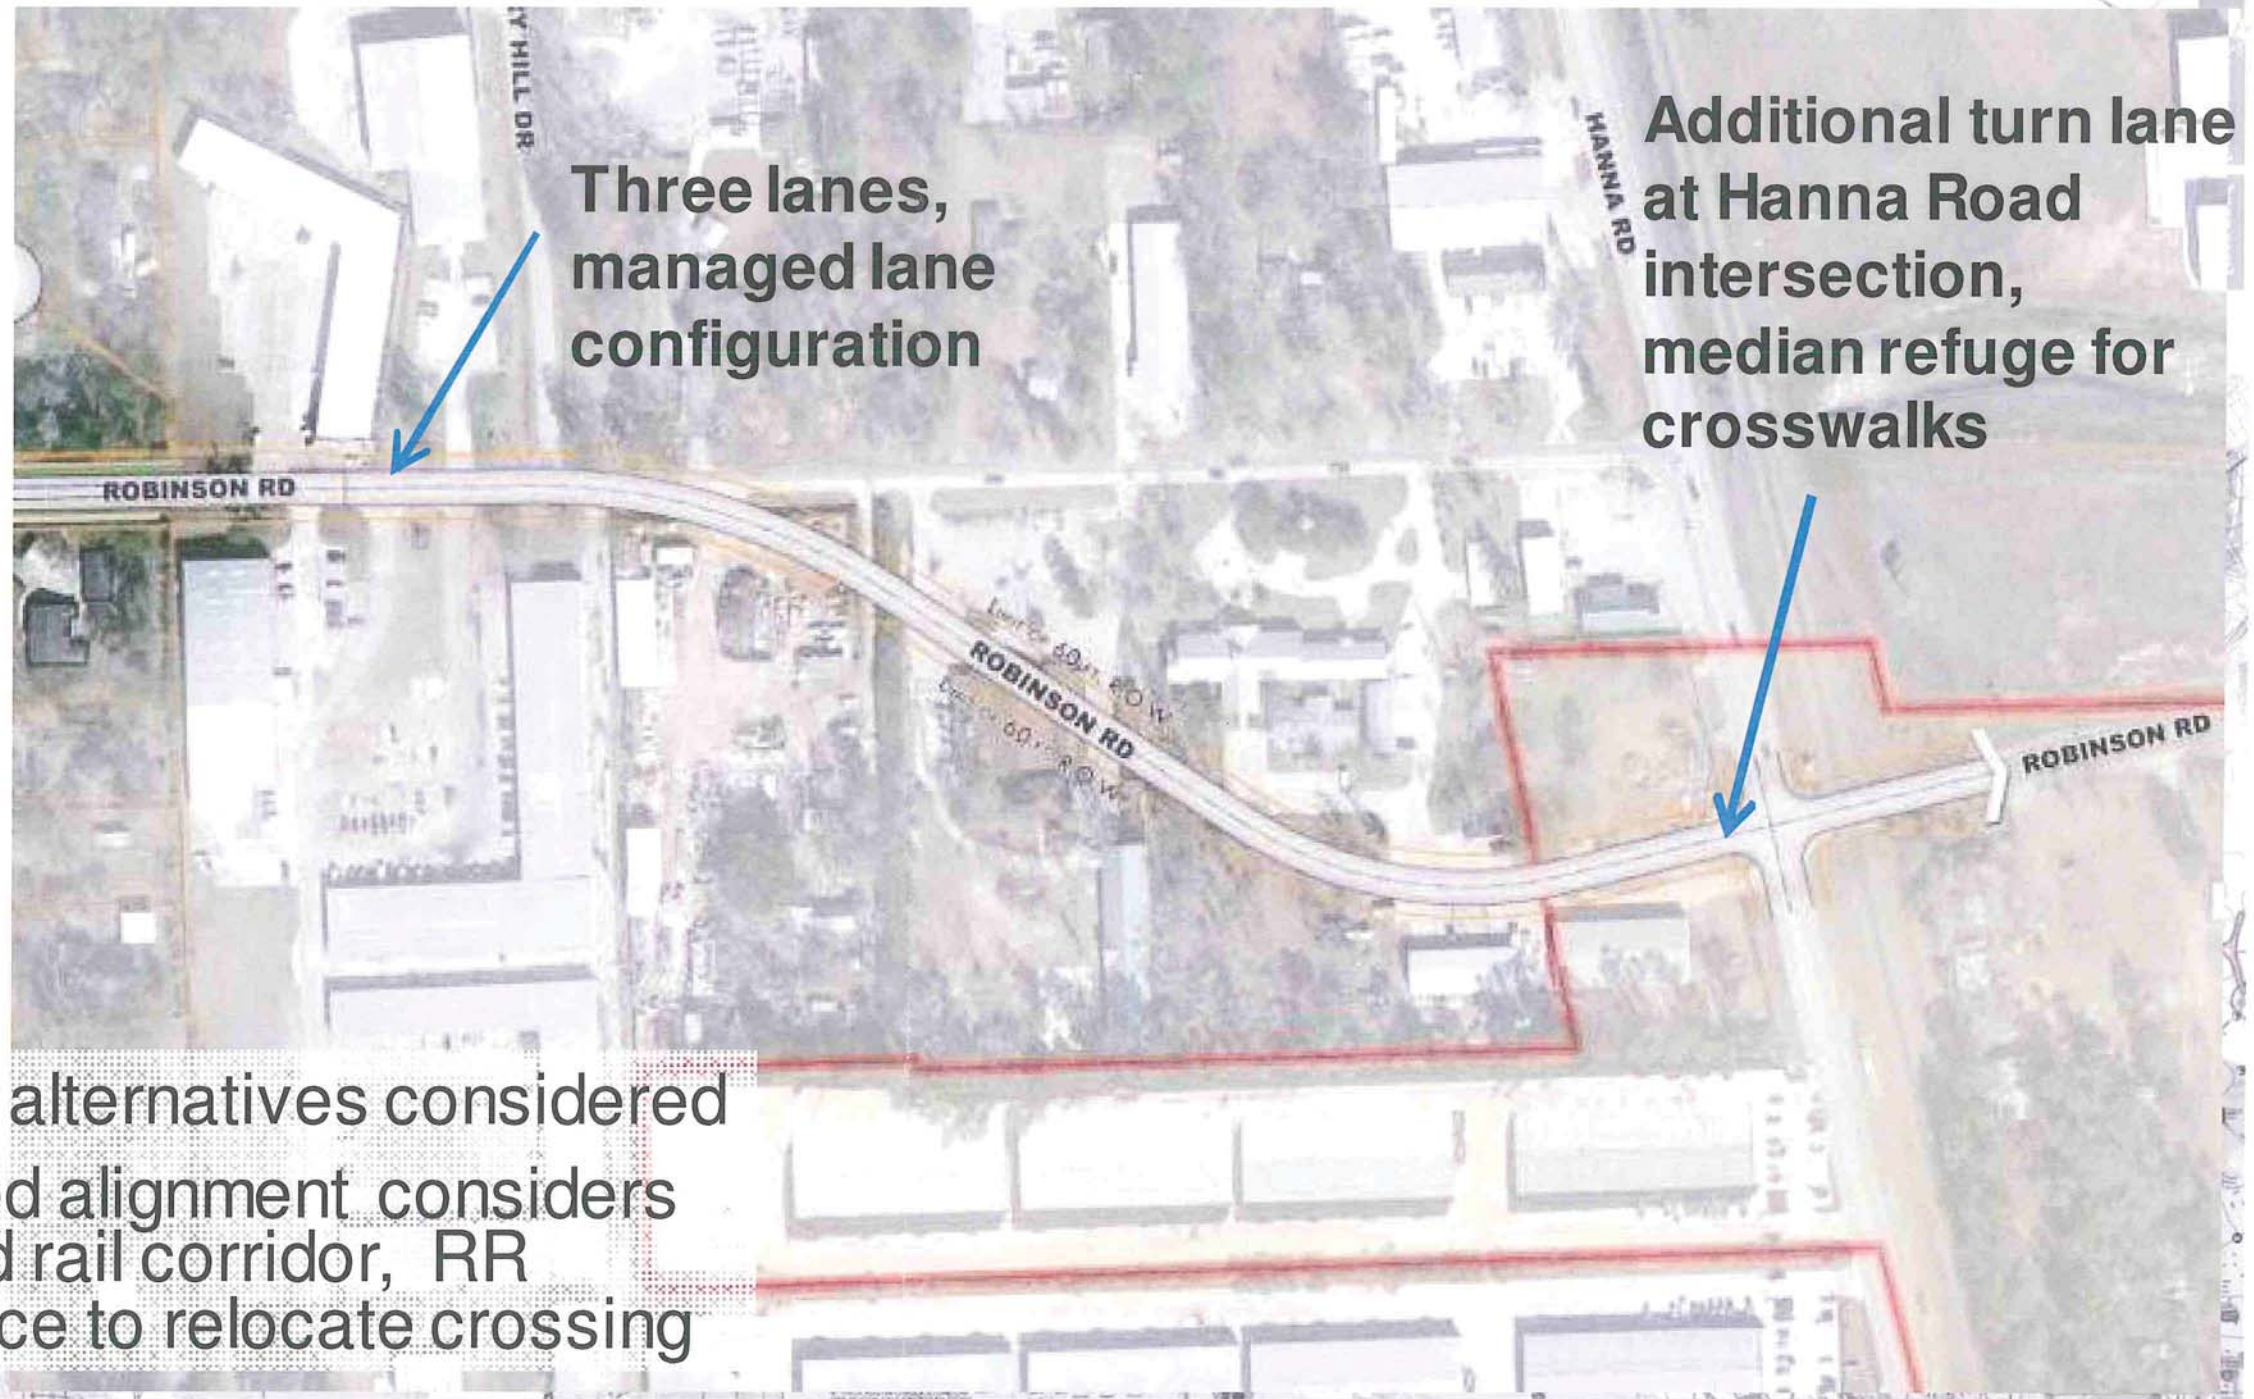

Figure 5-5 Proposed re-configuration of Robinson Road and Woodlands Parkway (image source: Jones and Carter Inc.)

FUTURE TRANSPORTATION PLAN

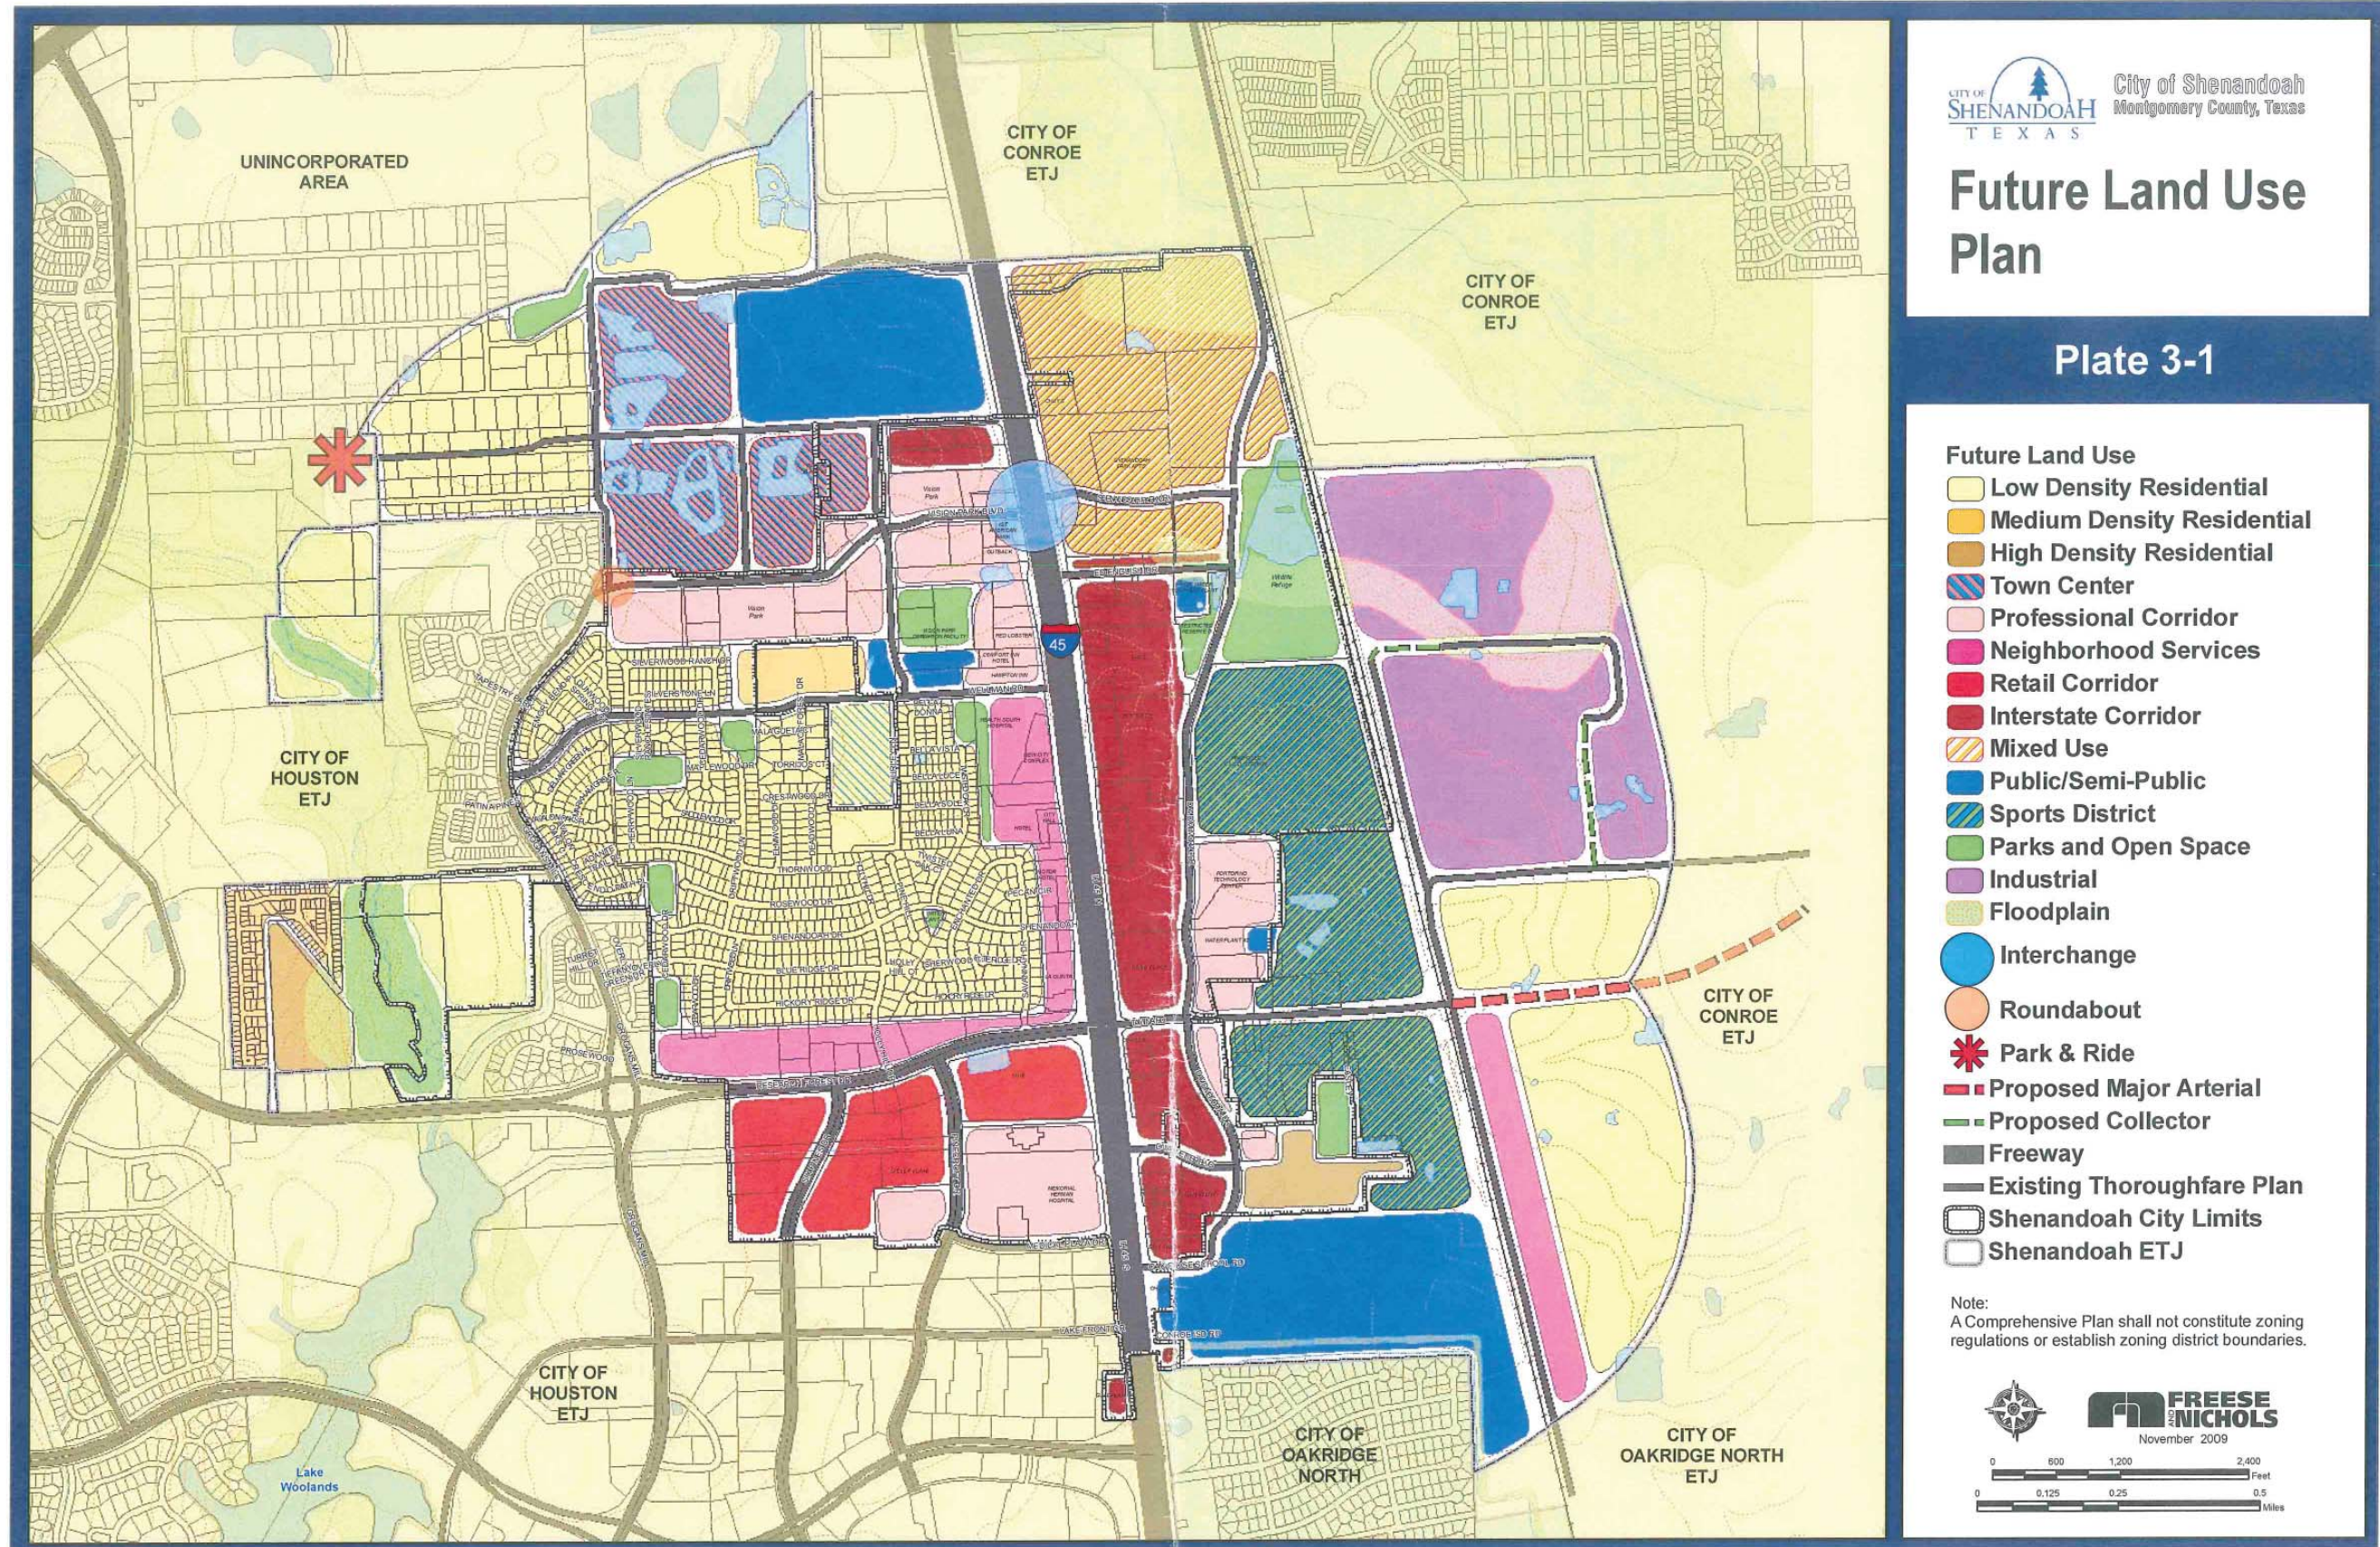

-  **Major Arterial** - carries regional movements
-  **Minor Arterial** – conveys movement from one local area to another
-  **Minor “Complete Street” Arterial** – conveys movement both in Oak Ridge North and some external movement, but also preserves small town character
-  **Local Collector** – conveys movement around the City and to areas adjacent to the City
-  **Neighborhood Collector** – movement from one neighborhood to another
-  **Local Streets** – movement within neighborhoods
-  **Traffic calming Installation**
-  **Potential Traffic Circle Installation**

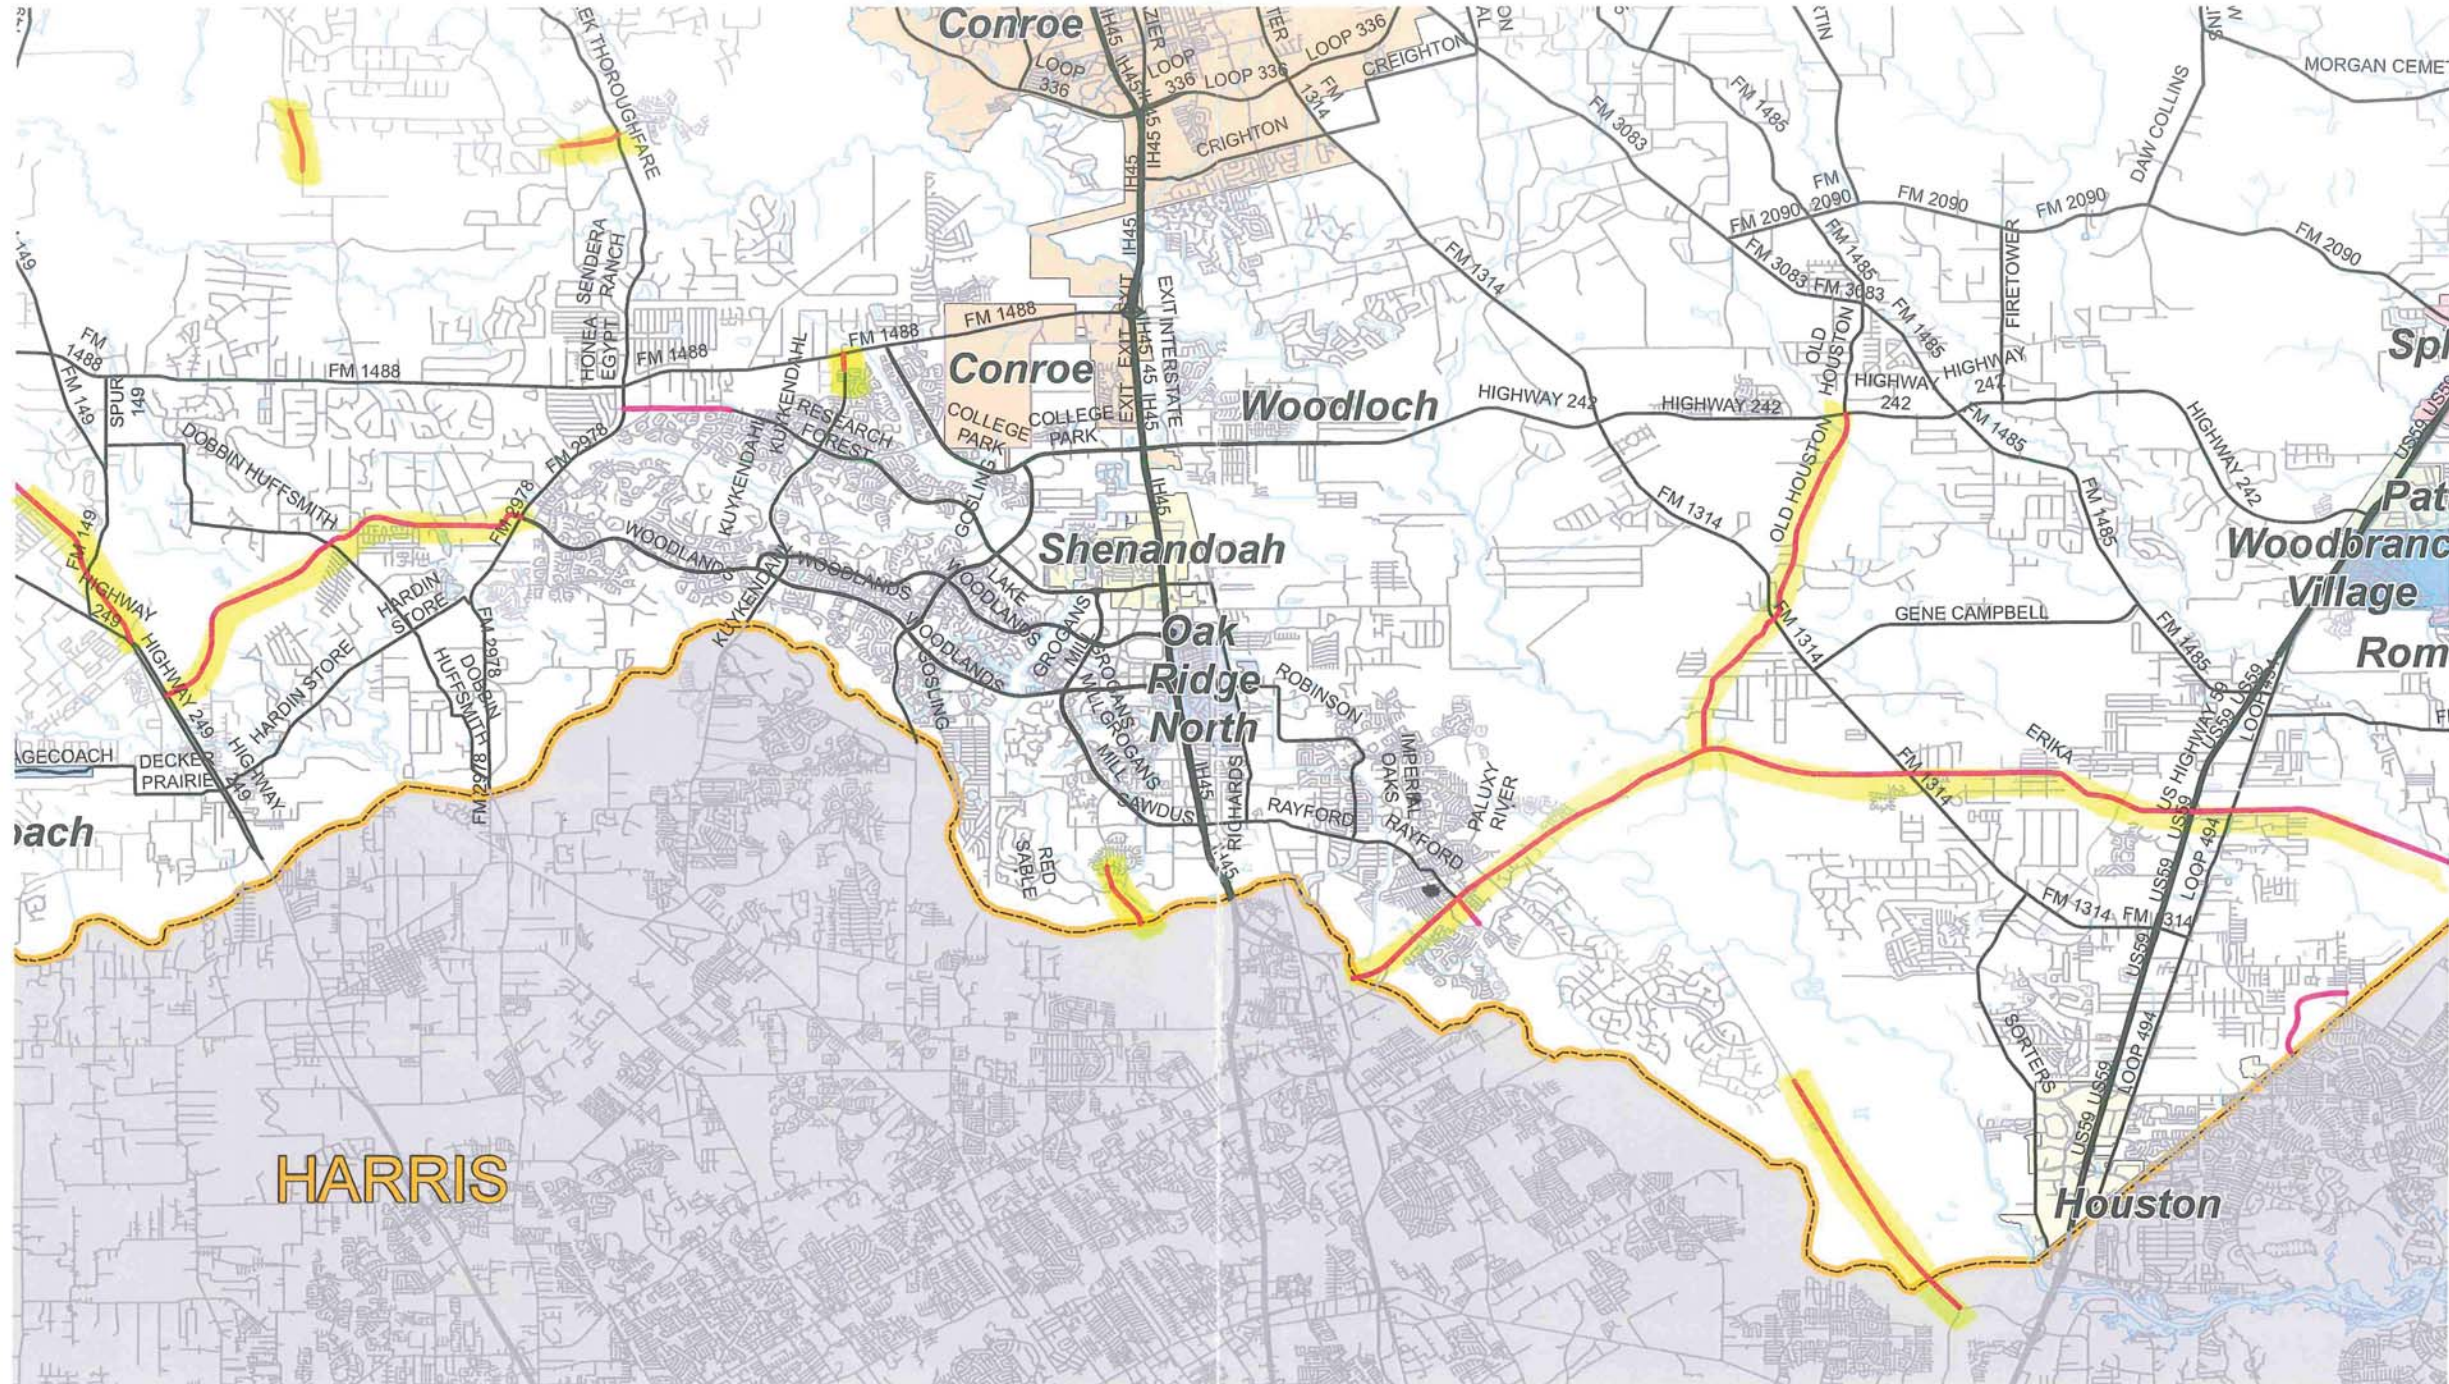

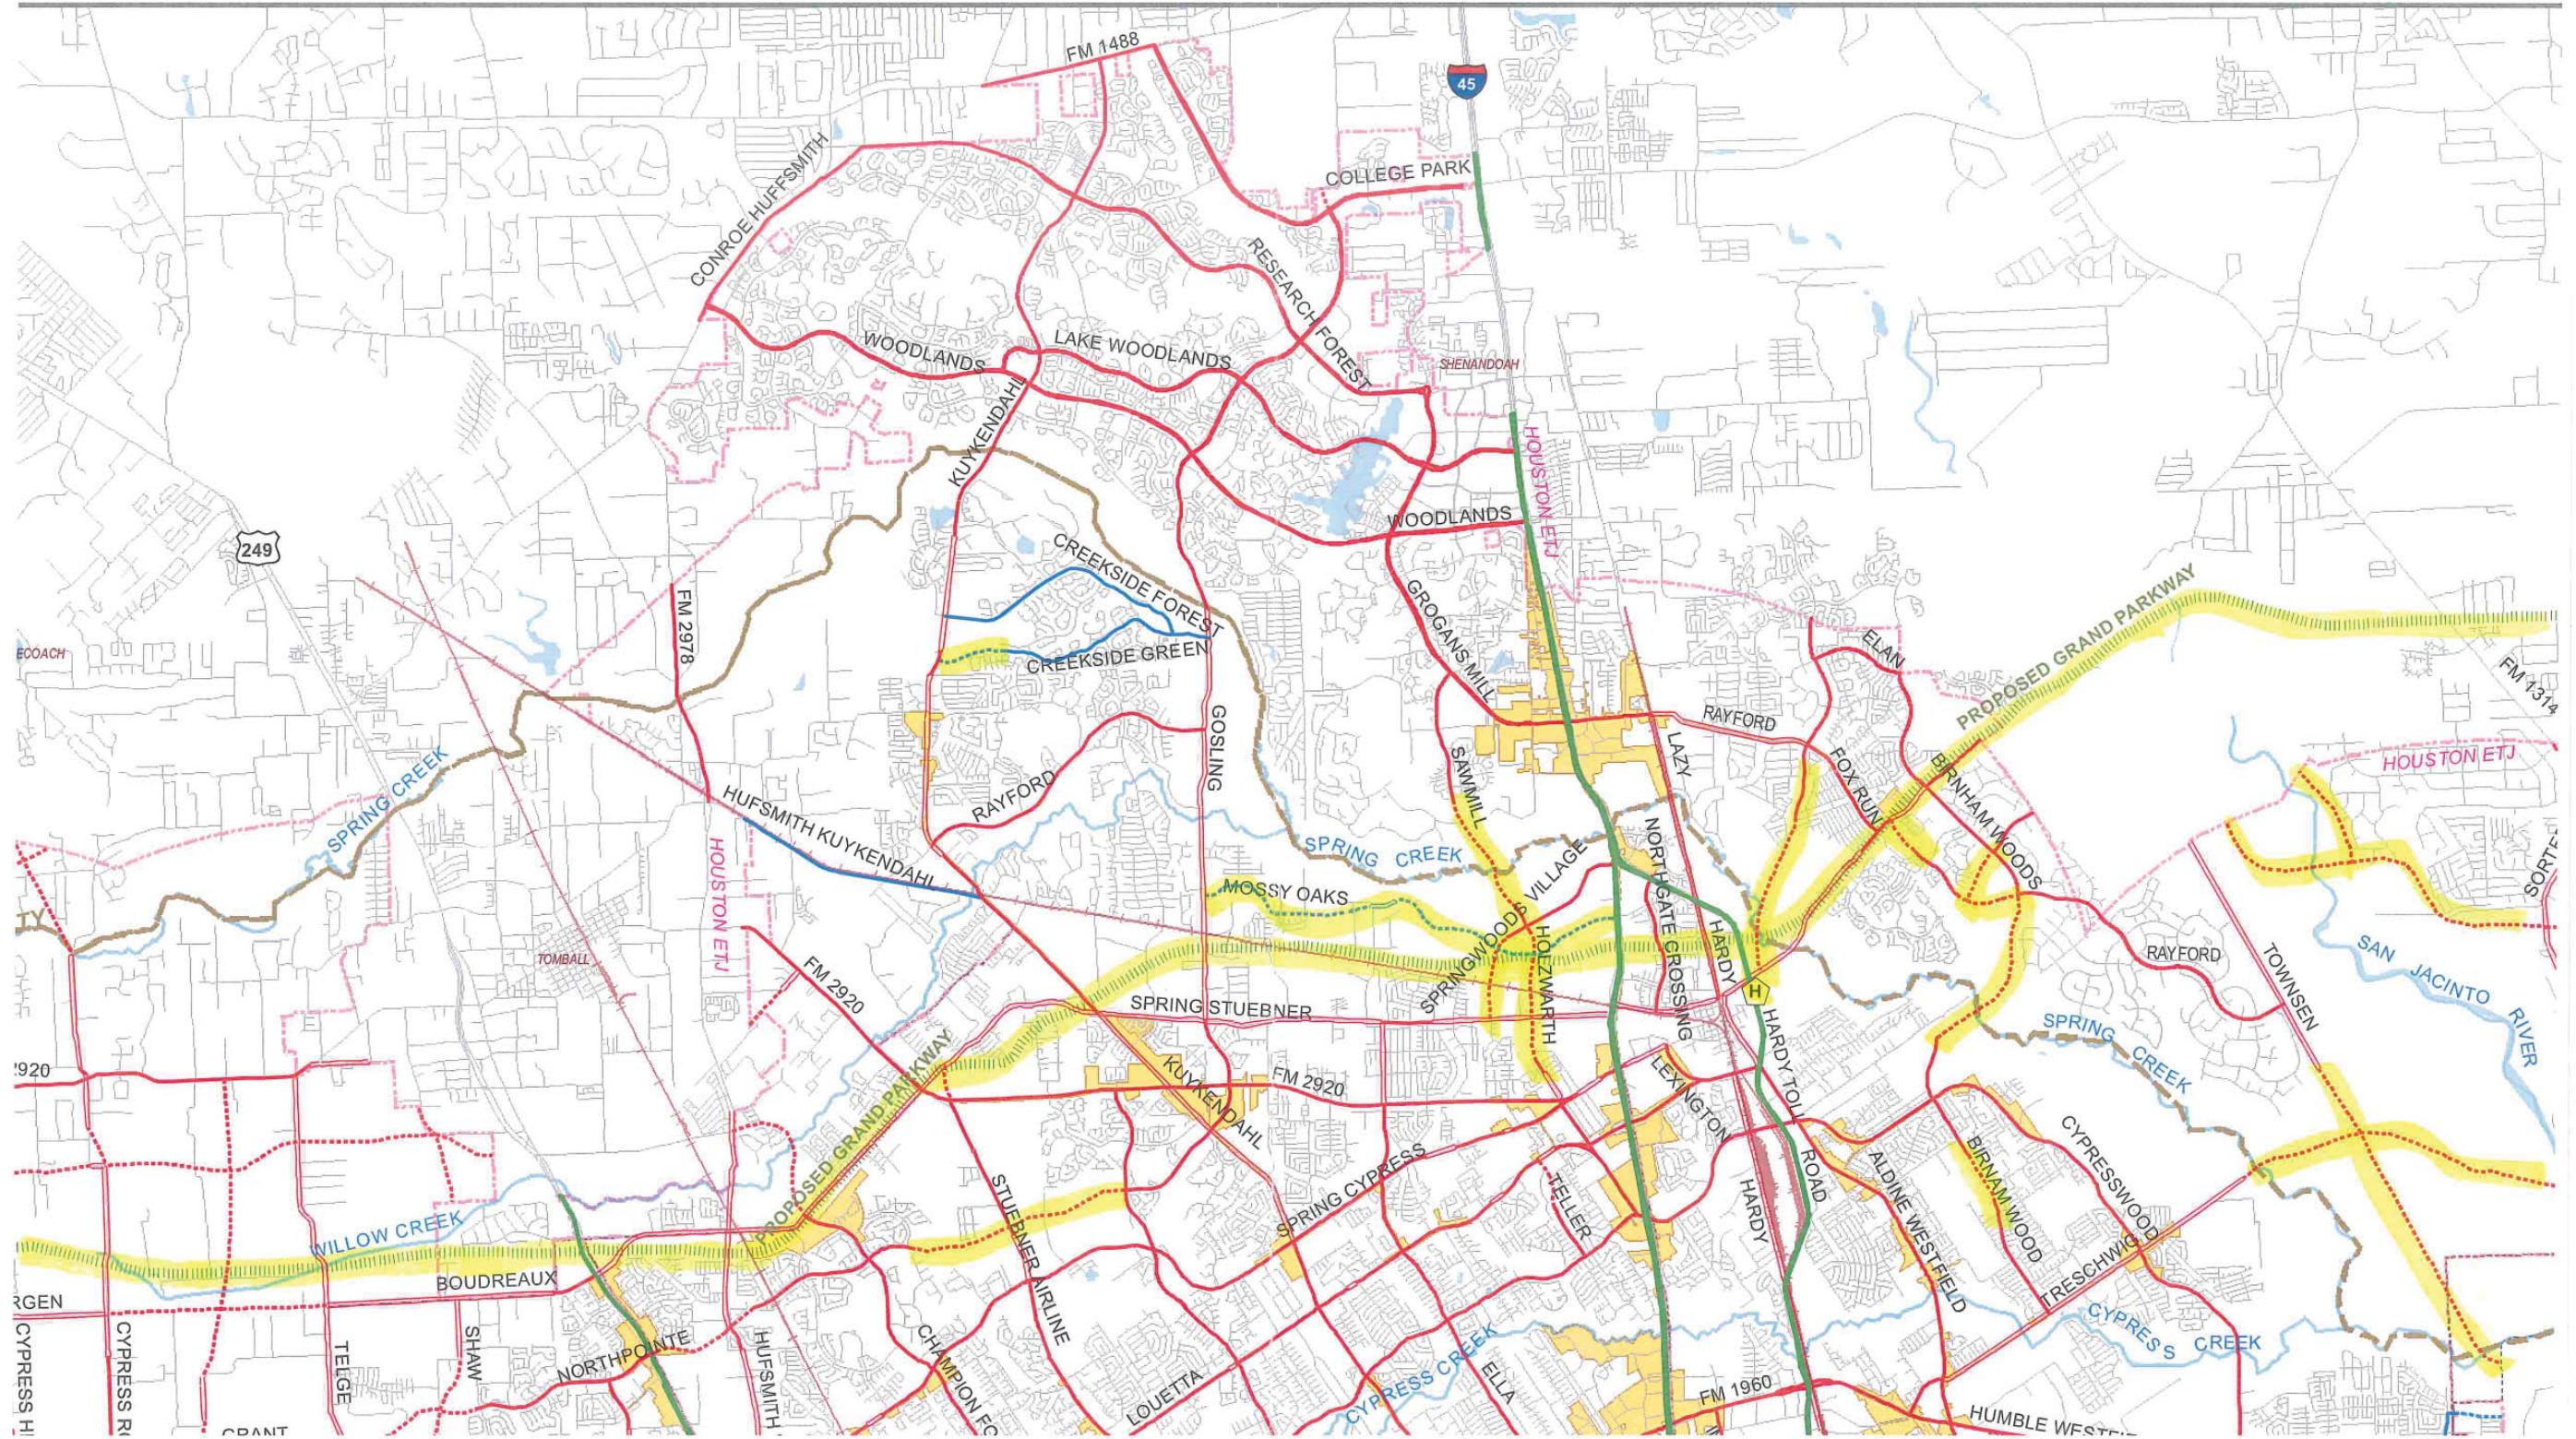

PREFERRED ALIGNMENT - FUTURE ROBINSON ROAD

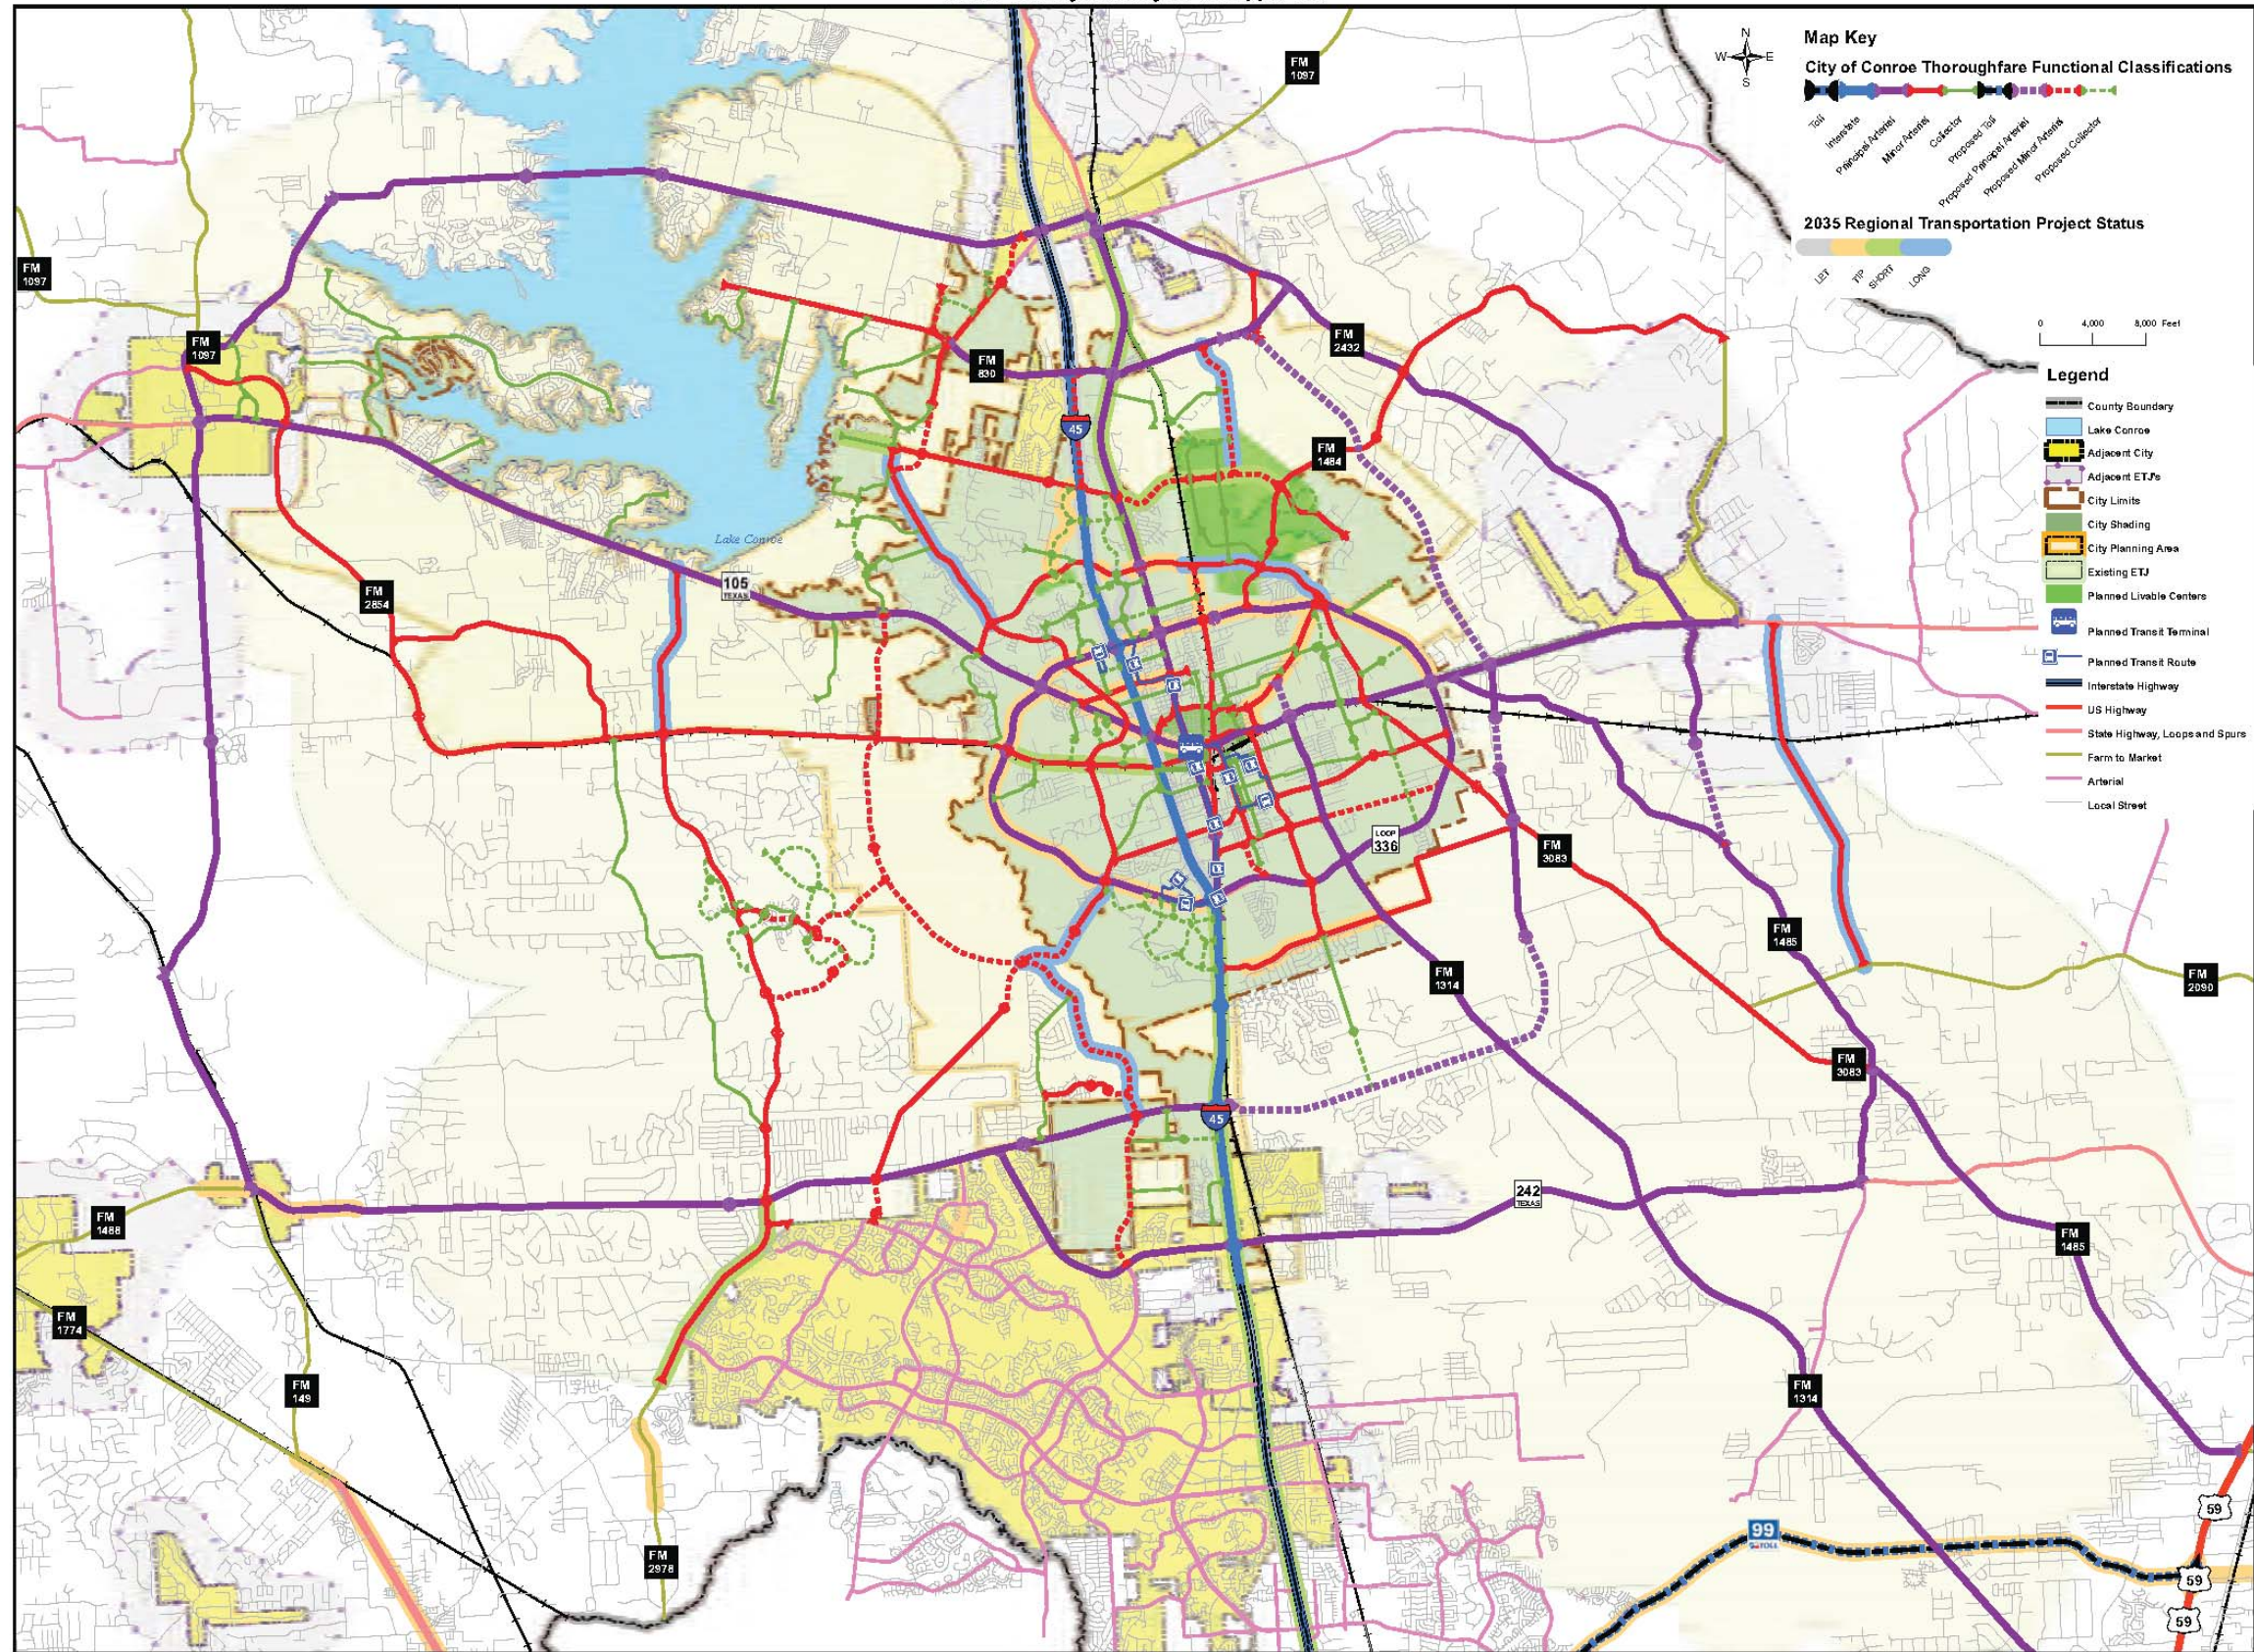

- Multiple alternatives considered
- Preferred alignment considers elevated rail corridor, RR reluctance to relocate crossing

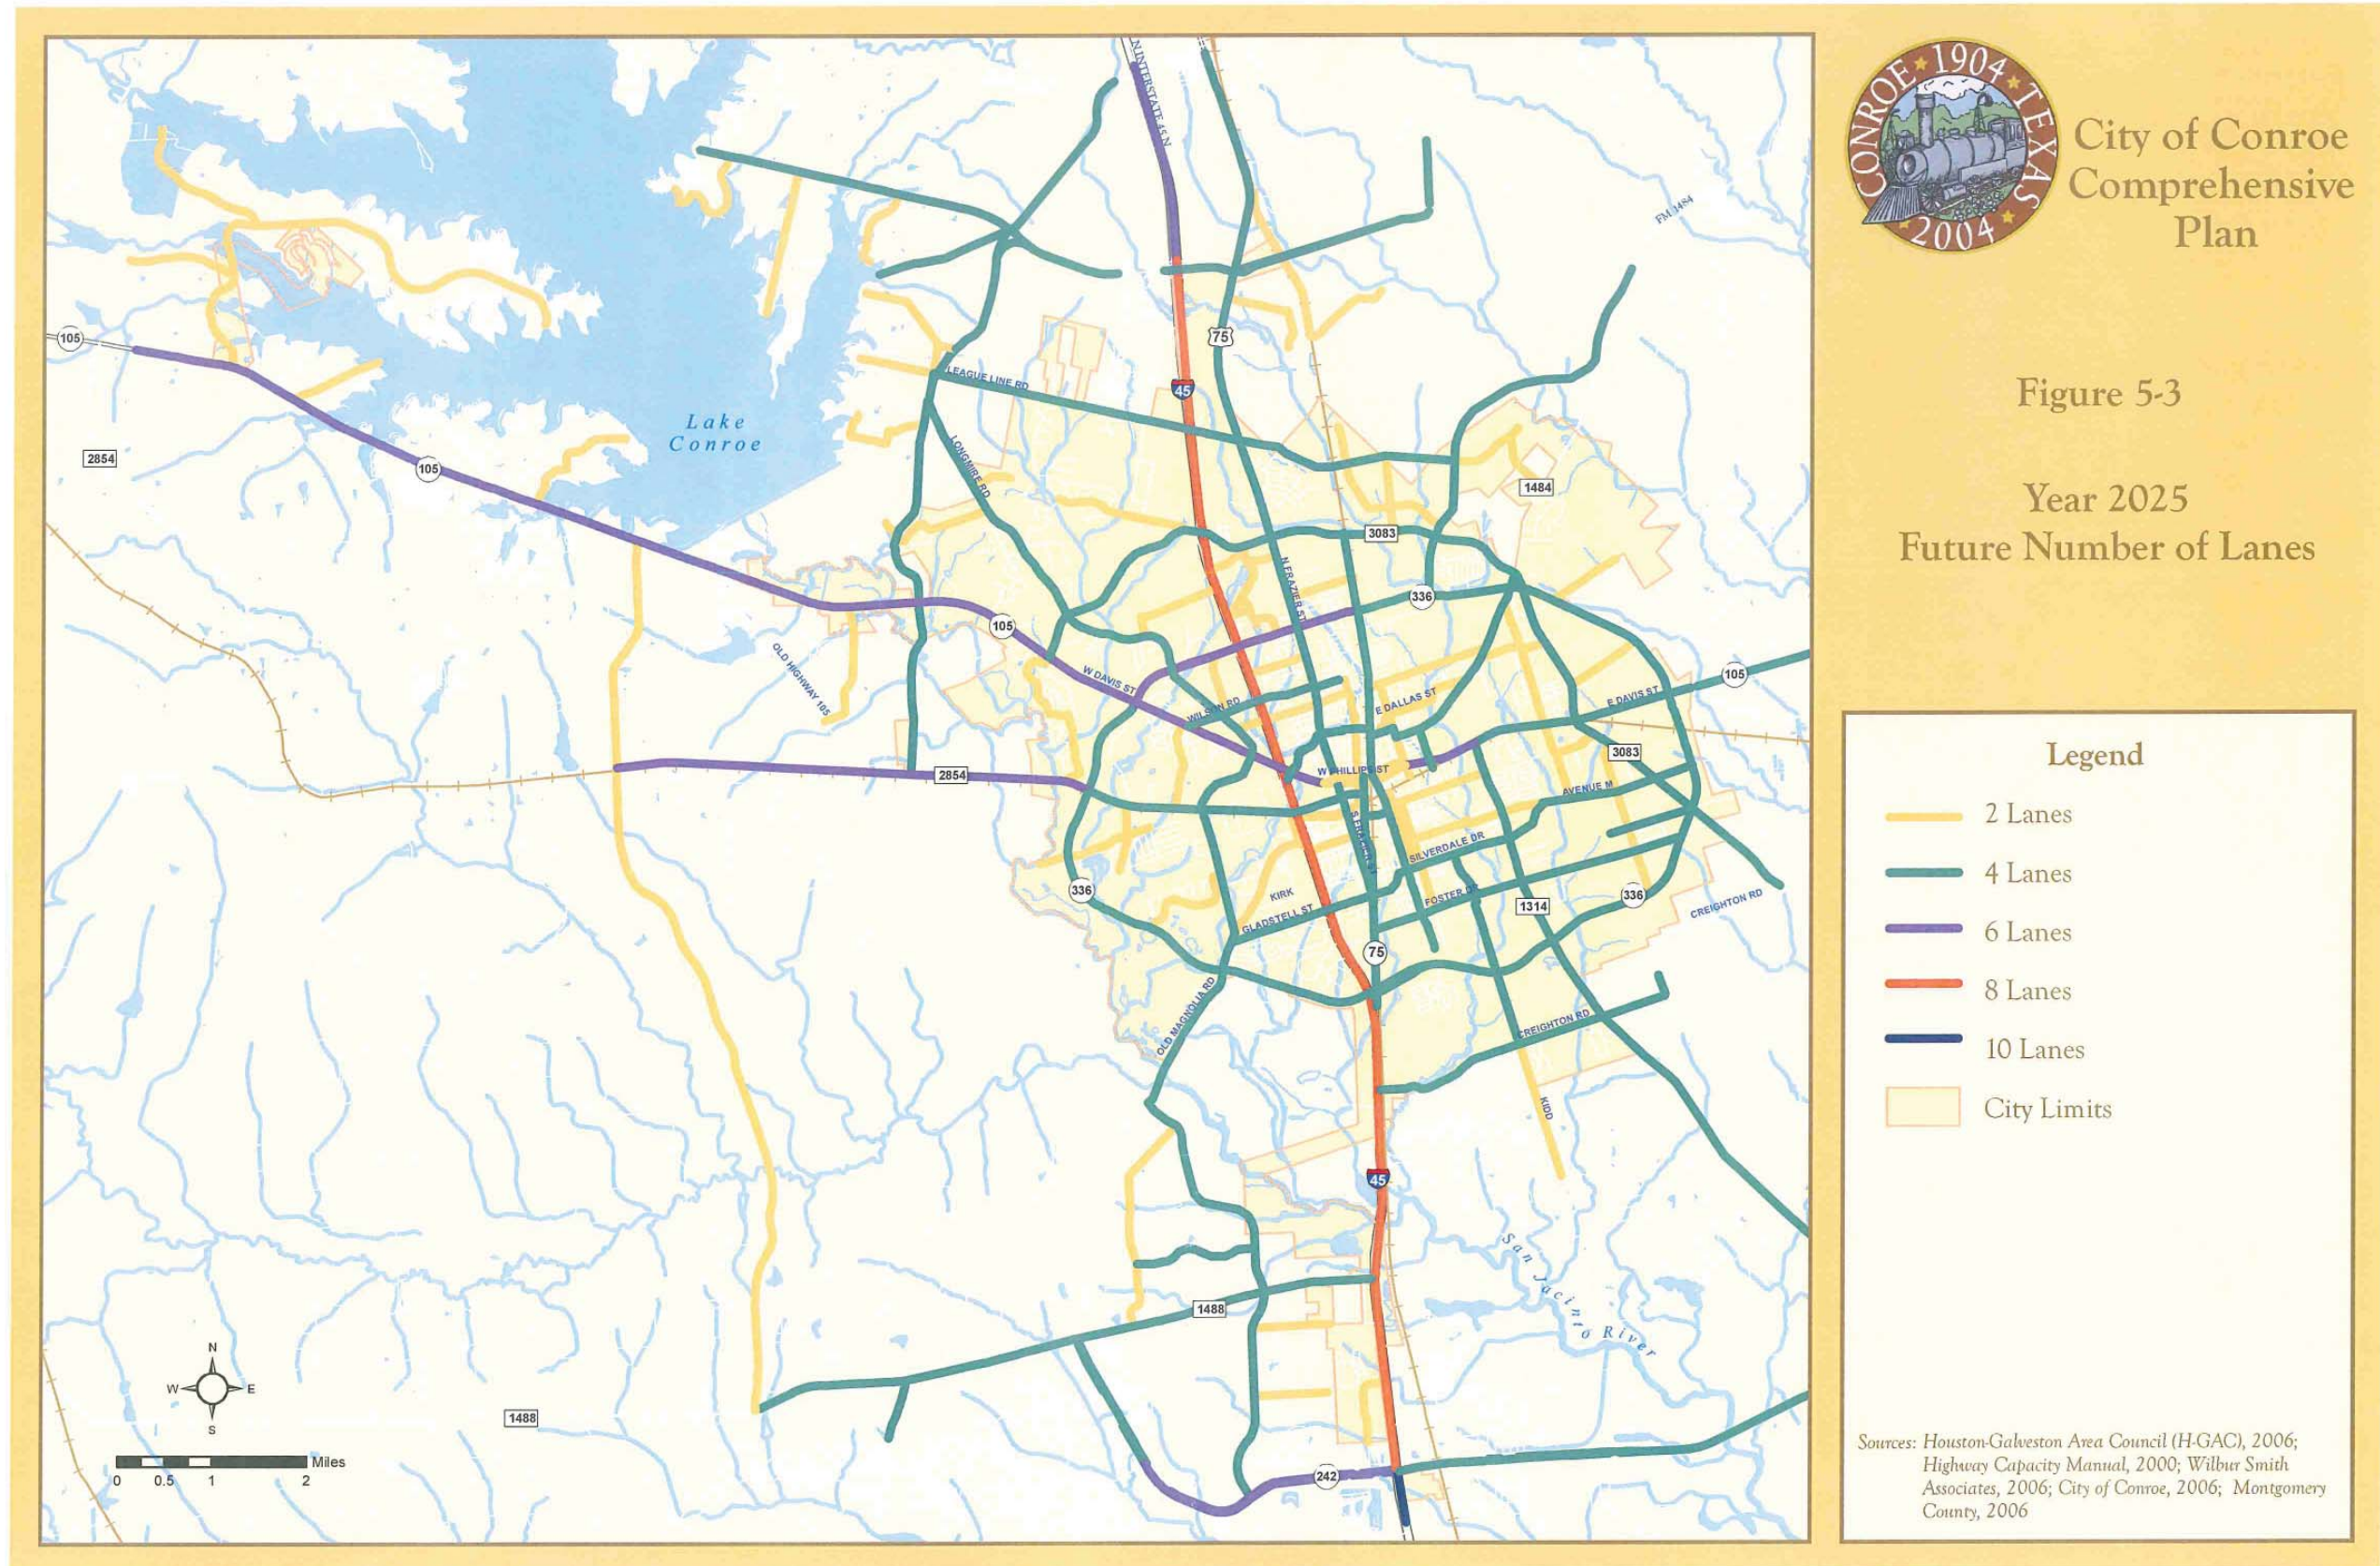

South County Mobility Plan : Appendix

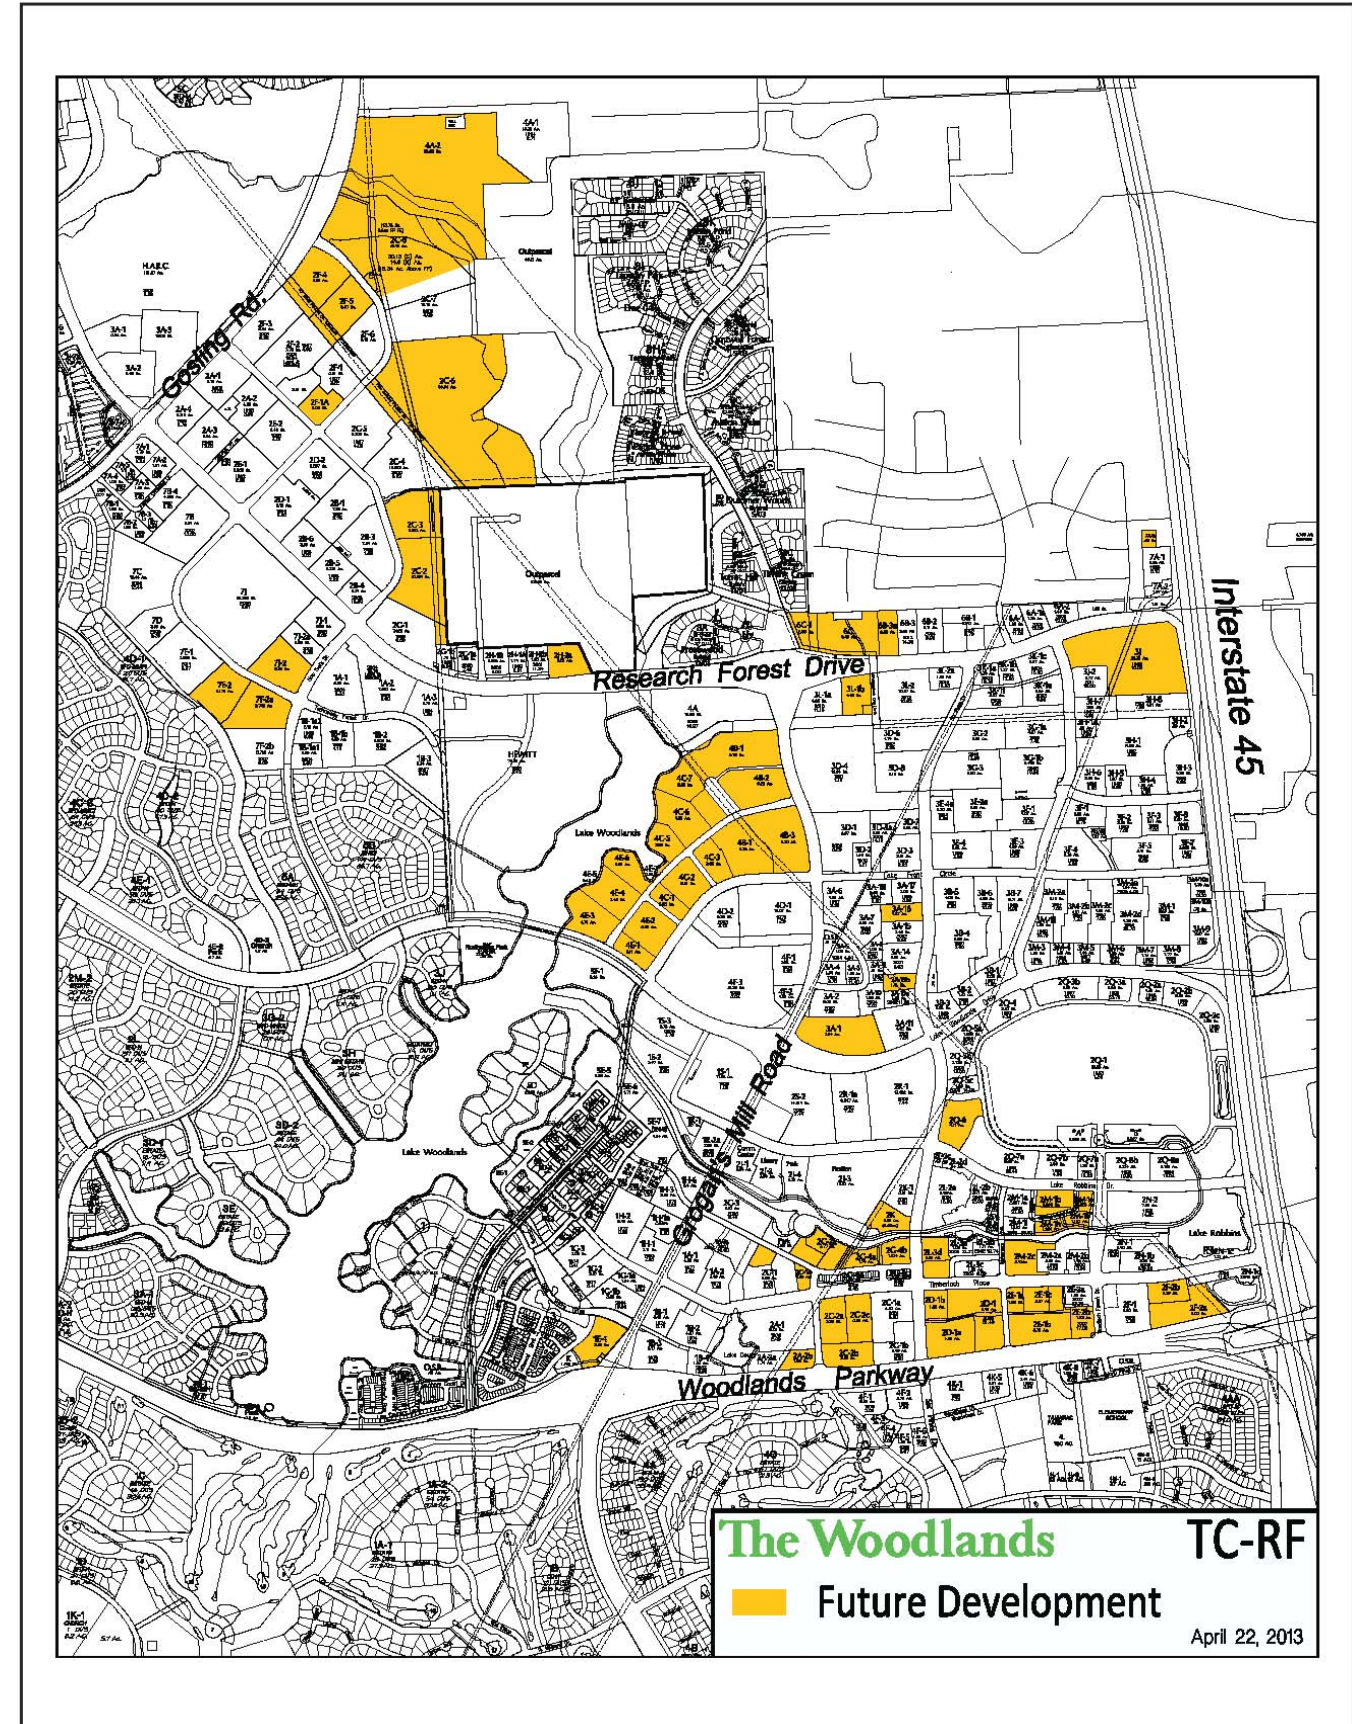

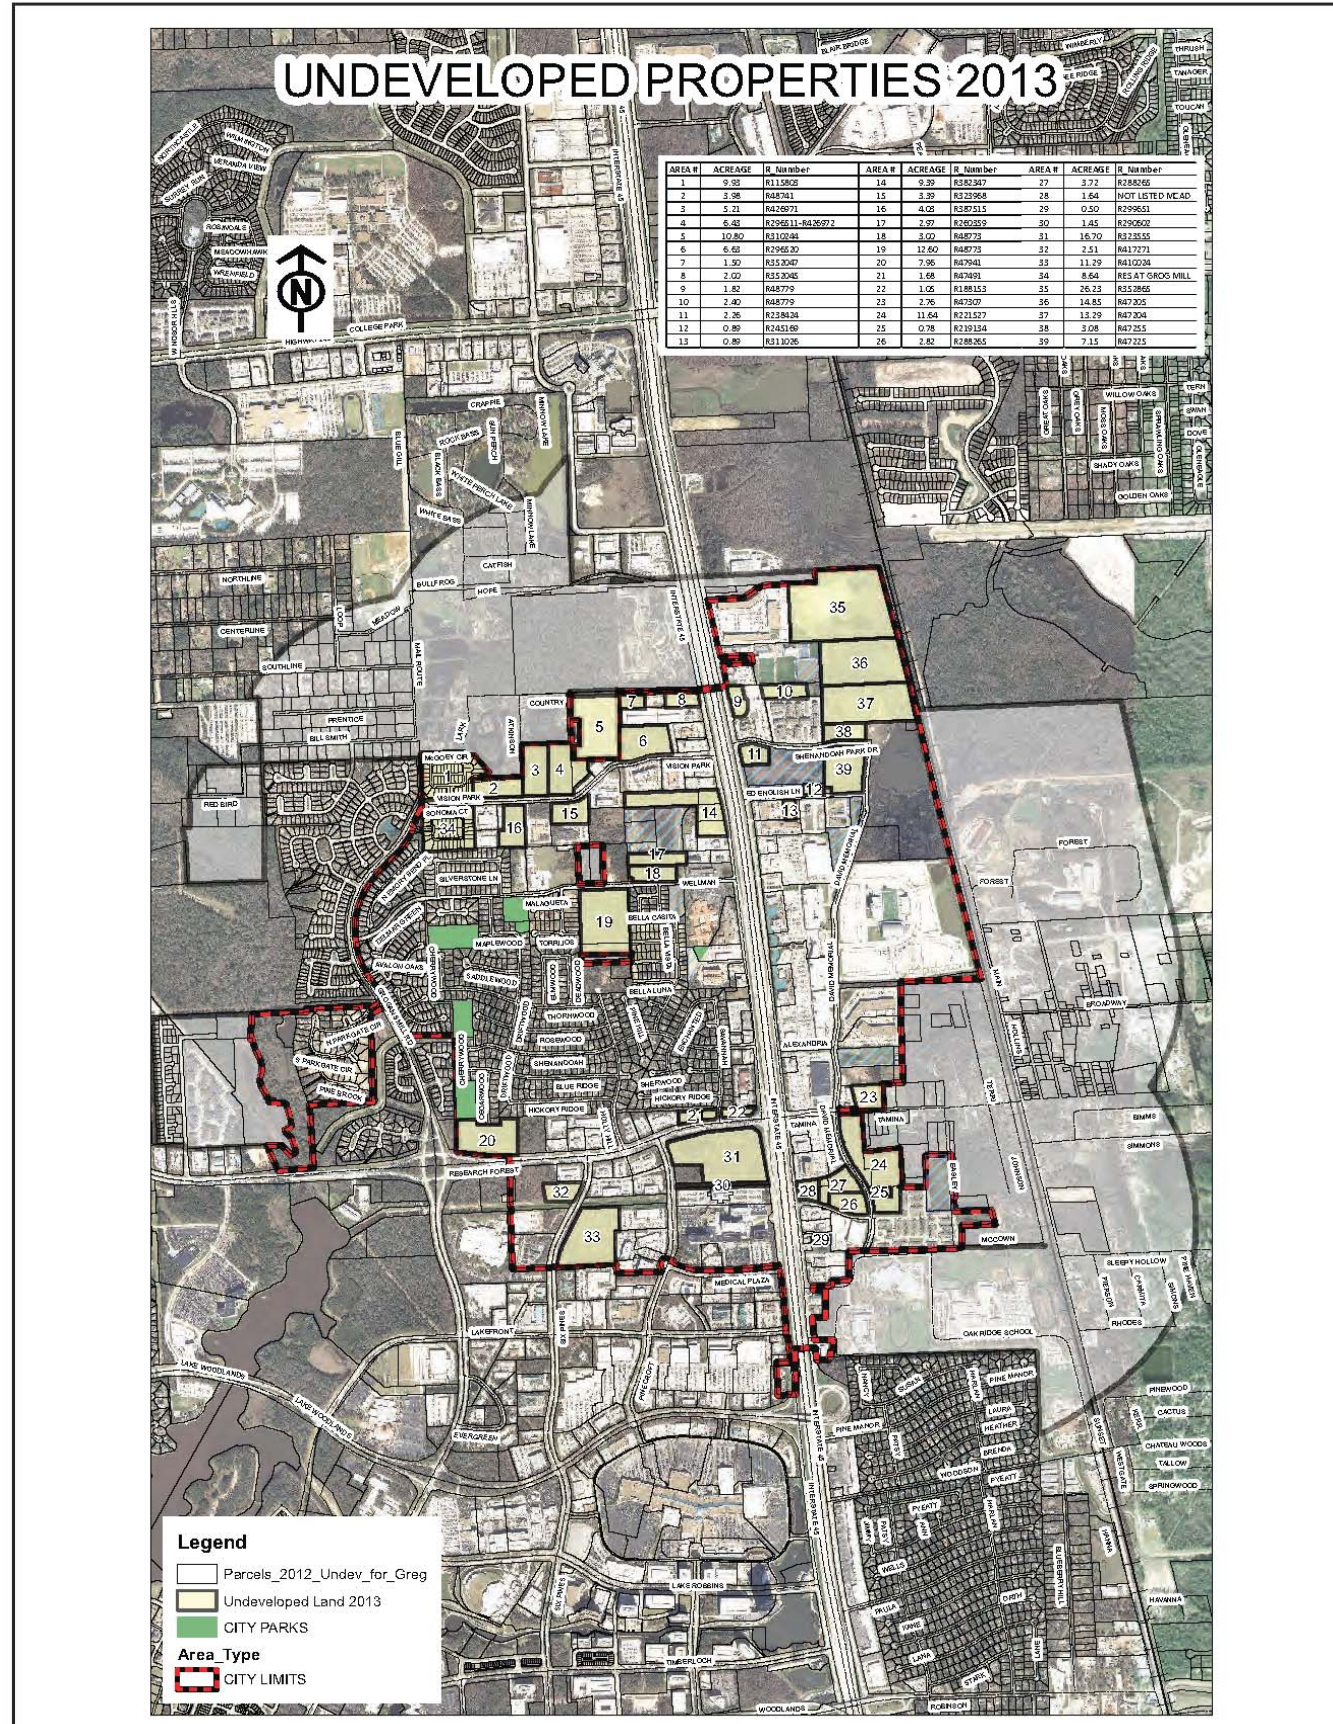

Revisions:
 11/07/2012 - Amend provisions of Ordinance No. 1289-10, adopt a revised City of Conroe Thoroughfare Plan.
 12/12/2012 - Update Regional Transportation Project Status
 2/20/2014 - Added Planaton Dr Extension & Hilltop Extension by Engineering.
 09/02/14 - Update La Salle Corridor by Engineering.
 01/02/14 - Update Old Conroe Magnolia Rd Corridor by Engineering.
 10/02/2014 - Update Anderson Crossing, South, M.P. Clark, Thompson Rd, Harston Dr., Conroe Market Place Dr. & Stevens Forest Sub, & Stake - The Grand Central Park

2035 Thoroughfare Plan of the City of Conroe

SPRINGWOODS VILLAGE™

Introduction

Harpers Preserve is proposed on the south side of State Highway 242 (SH 242) at Montgomery Creek Ranch Trails in Montgomery County, Texas as shown in **Figure 1**. The proposed development will consist of 510 units of signal family housing, 300 units of apartments, 250,000 square feet of shopping center and a 600 student elementary school and is assumed to be completed by 2018. The purpose of this study is to determine the potential traffic impacts of the proposed development on the surrounding roadways and intersections.

APPENDIX G:
IH 45 INTERCHANGES

IH 45 at FM 1488 Interchange

IH 45 at Lake Woodlands Drive Interchange

IH 45 at Woodlands Parkway/Robinson Road Interchange

APPENDIX H:
PUBLIC INVOLVEMENT

1.0 Public Involvement Initiatives

The SCMP engaged the public in the decision-making process, in keeping with the Federal Highway Administration's five key initiatives for a successful public participation process:

- **Public involvement is more than simply following legislation and regulations.** In a democratic society, people have opportunities to debate issues, frame alternative solutions and affect final decisions. Knowledge is the basis of such participation. The public needs to know details about a plan or action in order to evaluate the relative importance and anticipated costs and benefits. Through continued interaction with the entire community, agencies and project sponsors can build support and assure that the public has the opportunity to help shape the substance of plans and actions.
- **Agency and non-agency partners need to be in continuous contact during transportation decision-making,** from early problem identification to definition of purpose and need, and from alternatives development to implementation of a particular solution.
- **Agencies and project sponsors should use a variety of public involvement techniques** to target different groups or individuals in different ways, according to their varying agendas. A single, one-size-fits-all approach usually leaves people out of the process.
- **Agencies and project sponsors should search out the public and work hard to elicit comments.** It is true that resources are limited, and agencies cannot make anyone participate. However, transportation agencies have repeatedly found that actively engaging the public and changing unsuccessful approaches bring greater results.
- **Agencies and project sponsors should focus on increasing public participation in decisions** rather than conducting participation activities because they are required. Decision-making should include both the continuous stream of informal decisions made by agency staff and the less frequent formal decisions made by higher-level management. Timely agency response to ideas from the public and the integration of those ideas into decisions shows the public that participation is worthwhile. A focus on the wide range of possible decision points gets agencies past simply offering the public passive opportunities to comment on proposals just before formal decision-making.

Using FHWA's initiatives as a starting point, the SCMP team customized a Public Involvement Plan that described the unique character of the area and needs of the residents, businesses, and employees who face daily mobility challenges.

1.1 Public Engagement Activities

The Public Involvement Plan outlined a multi-pronged approach to engaging the diverse entities and individuals who can provide input to the SCMP study process. The project team convened

groups of people early in the process to define issues. Later stages of the project focused on prioritizing recommended improvements.

1.2 Steering Committee Meetings

As was discussed previously, a core group of individuals representing the entities sponsoring the study, policy decision makers within and adjacent to the study area, and other groups with key input on area mobility issues met regularly to oversee the study.

This Steering Committee informed the project team of past studies and data collection efforts that previously occurred, to avoid duplication of past efforts; goals, objectives and performance measures were developed for the study; and their constituents and members were represented.

Meetings Schedule

Throughout the project a series of Steering Committee and Public Meetings took place. To date a number of meetings have already occurred with other planned as the project progresses. The meetings that have already occurred include:

- October 24, 2013- Study introduction, roles, activities, and timeline.
- November 14, 2013- Vision statement, goals, and performance measures.
- January 14, 2014- Business Open House and bicycle work group.
- January 16, 2014- Preliminary findings and recap of elected officials briefing.
- April 3, 2014- Report on existing condition analysis.
- June 19, 2014- Present improvement alternatives.
- July 18, 2014- Report on future condition analysis
- July 31, 2014- Develop implementation strategies
- August 28, 2014- Present candidate projects
- September 11, 2014- Present draft plan.
- November 19, 2014- Comments on draft plan.
- June 4, 2015- Draft plan revisions.

1.3 Elected Officials Briefings

Throughout the course of the study, elected officials may request briefings on the study's progress. H-GAC will provide briefings at key milestones during the project, or provide materials that can be used for briefings, as part of the agendas of regularly scheduled city council or commissioners' court meetings. Meetings to date include:

- January 7, 2014- project introduction to elected officials of the Cities of Oak Ridge North and Shenandoah.
- January 16, 2014- project introduction to The Woodlands Township Board of Directors
- February 11, 2014- briefing with Montgomery County Precinct #3.
- September 17, 2014- briefing with elected officials representing: The Woodlands Township, The City of Oak Ridge North, The City of Shenandoah, Montgomery County, and Harris County. Officials reviewed and commented on candidate projects.

1.4 Business Open House

Employers and businesses possess critical information about current and future transportation needs. An open house provides a forum to gather the key issues and concerns of their employees, customers and visitors. This event was held:

January 14, 2014- 7:30 a.m. to 9:30 a.m.
Fairfield Inn on Interstate 45, just south of Rayford/Sawdust

An informal come-and-go setting enabled participants to visit with team members and to identify issues such as high crash locations, problem intersections, slated future developments, etc. The forum was open to all interested parties, but commercial businesses and restaurants throughout the study area were encouraged to attend. A total of 23 representatives of area businesses and 4 representatives of steering committee members attended. The summary of the business open house survey resulted in the following:

- Most attendees voiced support of a transportation bond referendum
- Bottlenecks occurred when going north of Research Forest on both sides of IH 45. In addition, there are bottlenecks on Gosling, Kuykendahl, Sawmill, Grogans Mill, Sawdust, Rayford, Robinson, College Park Drive/SH 242 by Lone Star College, Woodlands Parkway, and IH 45.
- Improve funding coordination
- Unprotected left-turn signals
- Grand Parkway impacts
- Robinson Road realignment
- FM 2978 traffic congestion

1.5 Public Meetings

The intent of this Public Involvement Plan is to promote honest, active, two-way communications with the public through public meetings. The team conducting the study seeks to actively solicit and listen to the public's concerns and keep them informed about the study's progress. The goal is to provide members of the community the opportunity to participate, allow their concerns to be expressed, and to demonstrate those concerns that have been considered as a part of the project process.

Public meetings are a major component of this two-way communication effort and are scheduled to be held at two different times during key stages of the project:

- February 27, 2014- Oak Ridge Baptist Church
Explained why the study was being conducted and displayed potential improvement tools, and presented preliminary findings of the existing conditions analysis techniques along with the measures that would be used to evaluate proposed improvements. More than 120 members of the public attended this meeting.

- September 25, 2014- The City of Shenandoah Municipal Complex
Provided draft recommendations for public comment. Over 130 members of the public attended this meeting.

Notifications of public meetings will take advantage of a broad spectrum of print and electronic media:

- Elected officials notification letter.
- Website postings: project website and websites of Steering Committee members, The Woodlands Area Chamber of Commerce, area churches, homeowner and civic associations, and professional organizations.
- E-blasts to member/distribution lists of H-GAC, Steering Committee members, and Economic Development Partnership.
- Posting on Facebook pages for H-GAC, Steering Committee members, area churches, homeowner and civic associations, and professional organizations.
- Posting on Intranet of major employers.
- Woodlands Mall and Market Street kiosks.
- Posters in windows of grocery areas, retail and restaurant businesses.

1.6 Public Comments Regarding Existing Transportation System

There have been three Stakeholder meetings and one each Business Open House and Bicycle Community Meeting. Both of these meetings were held on January 14, 2014. At both meetings community concerns were gathered and are summarized briefly below.

1.6.1 Business Open House

The goal of the Business Open House was to determine how the current transportation conditions impact the needs of the business community. The business owners and operators were specifically invited in order to gain a better understanding of how transportation issues and overall mobility impact them. This includes everything from deliveries to employee commutes to business access.

1.6.1.1 Current Conditions

In general the majority of attendees were concerned with both the existing levels of traffic congestion as well as the planned roadway improvements. There was not much concern expressed over access to or from the various businesses specifically, the concern was directed toward the overall mobility within the study area.

In discussing current conditions with the attendees, the responses tended to gravitate toward the following issues: congestion along Rayford, Gosling, Sawdust, Grogans Mill and SH 242. In addition all roadways accessing the IH 45 frontage roads were of significant concern since this is the route the majority of residents take south toward the City of Houston.

1.6.1.2 Connectivity Needs

There were also several areas where connectivity among the communities is lacking. Most of these concerns are east of IH 45 and revolve around missing roadway linkages or perceived community barriers. To the east of IH 45, in the communities of Oak Ridge North and the City of Shenandoah, there are no significant roadways connecting the residential areas to IH 45. There are four roadways that allow for grade separated intersections and allow drivers to the west of IH 45 or north/south on IH 45: Robinson Road, Tamina Road, SH 242 and Rayford Road. There are several local roadways intersecting with the northbound frontage road, but a driver must turn north, then travel to the nearest grade separated intersection to travel west or south.

In addition to the lack of access, there is also a perceived community barrier with the Union Pacific Railroad traveling north-south. Because of railroad crossing requirements, there are a total of nine (one grade separated and eight at grade) crossings throughout the entire length of the study area. This makes travel east and west more difficult and essentially creates a barrier for the communities.

While it appears that there are some significant community concerns with regard to transportation and mobility in the study area, a number of improvement opportunities have already been identified.

1.6.2 Bicycle Focus Group

The goal of the Bicycle Focus Group was to engage several of the bicycle enthusiasts at the beginning of the project. Those people specifically invited are riders who not only ride for recreation, but are also commuters that ride significant distances on a weekly basis. Their input is critical to the overall understanding in the existing bicycle facilities and the need for expansion.

As the communities within the study area continue to grow and develop, the population is becoming more diverse and the need for alternative modes of transportation is becoming increasingly important. Residents are requesting more flexibility in both commuting and recreational options and as the region continues to develop so will the bicycling and walking culture.

Historically, The Woodlands Township was known for its development in harmony with nature and multitude of hike/bike trails and generous roadway shoulders along parkways for bicycling. In recognition of this, and of efforts to retain this character, The Woodlands Township received the League of American Bicyclists Bronze Bicycle Friendly Community designation. Over the years, this reputation for supporting bicycling and walking has attracted a population of walkers and cyclists who expect the community to support these activities.

1.6.2.1 Current Conditions

Over time, as the area has grown in population and employment, transportation efforts have been dedicated to accommodate as much automobile traffic as possible. An unintended consequence

of this has been the shrinking of bicycle facilities to create extra lanes for motor vehicles. This is particularly apparent along the roadways within two miles of the Town Center. Where in the past the norm was paved 8-10 foot shoulders, now these roads have no paved shoulders. In addition, these multilane roads nearing the Town Center and IH 45, have wide lanes and speeds over 35 mph, which discourage all but the most experienced cyclists. Making matters worse, these roads often have vertical curbs which threaten the safety of cyclists who could strike the curb with a pedal or front wheel and fall into traffic.

1.6.2.2 Connectivity Needs

At the same time there is demand for bicycling to employment clusters. There are few safe east-west and north-south connections from residential areas to major employment areas: The Woodlands Town Center, Medical Center (SW corner of IH 45 and SH 242 extending down IH 45 to Lake Side Drive), Town Center, Technology Forest (NE corner of Gosling and Research Forest) and ExxonMobil.

The South Montgomery county area is growing rapidly and unless steps are taken to include other modal options, travel by walking and bicycling will become increasingly difficult. Currently there is little bicycle or sidewalk access from residential areas east of IH 45 to west employment centers, with Rayford Road being the only possible route by bike. In addition, East Shore and Hughes Landing have major developments underway with no current bike access to east-west corridors, despite residents being prime candidates for bike commuting.

While the hike/bike trails in The Woodlands Township provide some connectivity, these can be hazardous to bicyclists traveling at high speeds due to poor sight distances and pavement quality, narrow widths and conflicts between users.

Bicycles can play an important and growing role in the local transportation system. While this traditionally has been limited to local neighborhood travel, interest in bicycling across the region has been continually expanding. There is a regional effort underway to create a connected greenway. Pieces of the Spring Creek greenway are paved and provide an excellent opportunity to build connectivity to the regional Bayou Trail System leading into Houston.

Creeks and drainage ditches could also be part of the long term solution. These corridors, along with pipeline and power line rights of way could provide an interesting alternative for pedestrians and cyclists, which do not require access to the roadways.

Bicycling and walking are cost-effective and low cost forms of transportation that are available to all age groups and income levels. These activities should be encouraged because they allow for greater flexibility and lower land needs (i.e. for vehicle parking). A bonus is that regular walkers or cyclists have greatly reduced health care costs. If developed properly, these facilities can help boost a local economy through bicycle tourism and/or through increased transportation options.

Through careful planning and coordination with new development it is possible to lay the foundation for a strong bicycling and walking network for the south Montgomery County area and region.

1.6.3 Public Meetings

Comments received from the public meetings indicate that the majority of the residents are concerned about congestion on the following roadways:

- Rayford/Sawdust (381 comments)
- Kuykendahl Road (243 comments)
- Robinson Road (203 comments)
- Hanna Road (143 comments)
- Gosling Road (139 comments)
- Woodlands Parkway (68 comments)
- Riley Fuzzell (65 comments)
- IH 45 (57 comments)

1.6.4 Additional Data Sources

Steering Committee members were asked to assist in gathering information from other groups with specialized information that will be incorporated into the study, including:

- Conroe Independent School District and any private schools that generate traffic, such as John Cooper School, The Woodlands Christian Academy or International School.
- Bike The Woodlands Coalition and other bicycle/running interest groups.
- The Woodlands Area Chamber Mobility/Infrastructure Committee and North Houston Association Transportation Committee.
- The Woodlands Visitors and Convention Bureau.
- Municipal utility districts
- Grand Parkway Segments F-1, F-2, and G representatives.
- Transit (to weigh in on how roadway improvements impact transit).

1.6.5 Work Group Meetings

In addition to gathering information from these data sources, meetings will be held with small groups that can provide detailed information about the needs and concerns of specific sectors of the traveling public. Work group meetings held to date include:

- January 14, 2014, Bicycle Work Group.

Received input from bicyclists regarding accessibility of trails

Asked about efficiency of trails

- February 12, 2014, Holcomb Properties Work Group, regarding a Rayford Road improvement concept study.

Proposed widening of Rayford Road, from the railroad to the Grand Parkway

1.6.6 Communications

A variety of tools will help communicate the study concepts in easy-to-grasp layman terms and keep interested parties informed on study progress. Tools include:

- Website for the three concurrent H-GAC studies with pages specific to South County Mobility updated regularly with materials and events.
- H-GAC outreach tools, including monthly Vision e-newsletter.
- Video showing helicopter fly-over of traffic hot spots.
- Exhibits describing examples of short-, medium- and long term improvements.
- Fact sheet with summary information, distributed by Steering Committee members to their constituents, at organization standing meetings and during special events.
- Survey to rank recommended projects, available at public meetings and online.

1.6.7 Media

News releases and queries to columnists who regularly write about transportation topics will build momentum for the study. We target publications that focus on the area, including:

- Impact News: The Woodlands
- The Houston Chronicle weekly sections: Woodlands/South County, Spring Klein & Tomball
- The Houston Chronicle transportation reporter, Dug Begley
- The Woodlands Community Magazine
- Your Houston News: Conroe Courier, Spring Observer, Woodlands Villager

Public Meeting #1 Summary Report

South Montgomery County is experiencing high-paced growth in all areas: jobs; construction of new office, medical and retail buildings; development of new master planned communities on both sides of I-45; and the slated 2015 opening of Grand Parkway segments running from US 290 to US 59/I-69. Recognizing the impact that this hyper-activity has on the area's roadway network, local leaders initiated a study led by the Houston-Galveston Area Council.

H-GAC is working with the Cities of Shenandoah and Oak Ridge North, Montgomery County, The Woodlands Road Utility District #1 and The Woodlands Township to identify and analyze the area's transportation issues. The South County Mobility Plan is a comprehensive transportation study to determine existing and future transportation needs by analyzing existing roadway deficiencies as well as anticipated land use and growth scenarios within South Montgomery County. The study's recommendations will help local governments and policy makers guide development of short-, medium- and long-range transportation investments in South Montgomery County to improve mobility and access to jobs, homes and services in the study area.

Public Involvement Approach

Active engagement with the public is an essential aspect of South County Mobility. H-GAC, in collaboration with the consultant team engaged by H-GAC to conduct this study, is implementing a transportation planning process that supports early and continued participation by the broad spectrum of affected and interested parties that live, work and play in the area. Public meetings provide an important avenue for members of the community to participate in the study, allowing their concerns to be expressed, and for the team to demonstrate those concerns have been considered as a part of the project process.

Public Meeting #1

The first public meeting was convened to explain why the study is being conducted and display potential improvement tools and techniques along with the measures that will be used to evaluate proposed improvements. It was held:

Thursday, February 27, 2014, 6-8 p.m.
Oak Ridge Baptist Church
500 East Oak Hill Dr., Spring, TX 77386

Meeting Notification and Publicity

Notifications of public meetings took advantage of a broad spectrum of print and electronic media to reach target audiences:

- Elected officials. Elected officials of the entities represented on the project's steering committee were notified by their steering committee representatives. State and federal elected officials were notified by an e-mail from Alan Clark, H-GAC Director of Transportation Planning.

Public Meeting #1 Summary Report

- Legal ads in Houston Chronicle, Your Houston News Publications (Spring Observer, Woodlands Villager, East Montgomery Observer and Conroe Courier).
- News releases to woodlandsonline.com; Impact News: Woodlands, The Paper, Guidry News, Houston Chronicle and Real Estate Bisnow.
- H-GAC: project website, e-blasts to expanded email list, Facebook, February issue of Vision e-newsletter.
- Website postings, Facebook pages and e-blasts to member/distribution lists of project partners, The Woodlands Area Chamber of Commerce, and The Woodlands Village Associations.
- Inserts to City of Shenandoah water bills to residents and businesses.
- E-blast to attendees of Business Open House and others who have expressed interest in the study.
- Posters and flyers displayed at South Regional Library, Lone Star College: Montgomery Campus, The Woodlands Township office, Oak Ridge North City Hall and Shenandoah City Hall.

Copies of the notices, website postings and articles are included in this summary report.

Registration

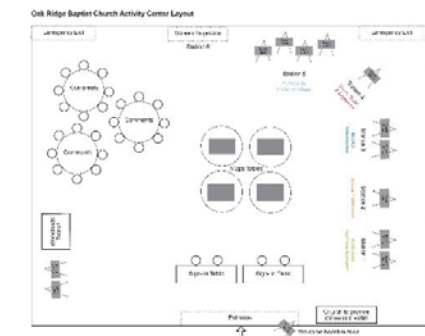

Meeting attendees that registered on the sign-in sheets included:

- 8 elected officials
- 8 steering committee members
- 1 media
- 122 members of the public
- 10 team members

Sign-in sheets are included in this summary report.

Open House

The meeting was conducted in an open house format. Sign-in tables greeted attendees at the front door. Informational boards set up around the perimeter conveyed the study area, technical approach, a.m. and p.m. rush hour traffic conditions, crash events data, traffic

Public Meeting #1 Summary Report

volumes, mobility improvement techniques, a list of issues and concerns, project vision, goals and objectives, and the preliminary findings regarding the study. Traffic data and simulations were also available. Tables in the center of the room provided maps covering the study area. Tables in the far left corner for attendees to fill out comment cards regarding their opinions and suggestions for improvements to mobility in the area. There was also a table for information regarding The Woodlands Transit study, a concurrent study within the area.

Comments

A total of 939 comments cards were completed as of 3/21/14 — 74 in hard copy and 865 on line. Two individuals provided “Cyclists’ Concerns and Input” attachments to the comments card. In addition, 72 general comments were received by 3/27/14, posted on the project website comments page, in direct emails to H-GAC or sent through The Woodlands Township website. A tally of the comments, along with verbal comments made to team members during the meeting, is in an appendix to this summary report.

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

We bike for errands, doctor appts, leisure etc
from 2978 / Woodlands Pkwy to Town Ctr & Medical
complex / Hermann Hosp. & Pavilion. Several times
per week.

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

Keep/improve bike-ability. Don't lose the shoulders
on Lake Woodlands Drive.

How should we pay for needed mobility improvements? Bonds, federal grants?

Provide any additional comments regarding mobility in South Montgomery County.

A "complete" liveable community includes a //
forms of transportation. Include mass transit and
bike options in The Woodlands. East-west and
north-south painted bike lanes or segregated
bike lanes to access Town Center.

Thank you for your input!

or contact: Carlene Mullins, carlene.mullins@h-gac.com or Thomas Gray, thomas.gray@h-gac.com

Cyclists' Concerns and Input

Pt.1 – Where we want to go (for starters)

- Create/maintain E-W (I-45 to SH 2978) and N-S (SH 242 to Creekside) bicycle friendly corridors

Pt. 2 – What's bicycle friendly?

- AASHTOⁱ approved safe bike lanes (for starters)
- “Protected” bike lanesⁱⁱ (better yet)
- Sidewalks (pathways) are NOT the answer – a mixture of strollers, skaters, runners and walkers creates a high risk of bike/bike and bike/pedestrian collisions and injuries.

Pt. 3 – Incorporate “Complete Street”ⁱⁱⁱ concepts in all new transit construction

- Encourages bike commuting to work. Many employees reside within 10 miles of 4 major employment centers in TW (Medical – Pincroft/Research Forest/242; Tech – Technology Forest; Retail/Office – Town Center and soon Hughes Landing – Lake Woodlands Drive; Energy – Research Forest/Technology Forest)
- More bicycle commuting lessens traffic congestion
- Bicycling enhances wellness

Pt. 4 – Bicycling is good for business/property values.

- Savvy companies seeking to attract Millennials and Gen X-ers locate in areas with bicycle friendly commuting options
- Workers who bike to work are healthier, leading to reduced health care/insurance costs
- Property values are increased by adjacent/nearby bike paths^{iv}
- Retailers and restaurants in bicycle friendly areas benefit from post-ride refreshment seekers. Establishes an “urban oasis” sense of community. Smaller retail purchases but more frequent return visits fosters merchant-customer loyalty. Less parking lot congestion.

Pt. 5 – Protect what we have left.

- Stop widening roads at the expense of the shoulders. Major parts of Woodlands Parkway and Research Forest no longer have road shoulders. We fear for Lake Woodlands Drive. Many areas with the highest employment/retail density are inaccessible by road shoulders.

Glossary and other fine print:

ⁱ AASHTO – American Association of State Highway and Transportation Officials. If you've got \$144 to shell out, their latest bicycle transportation guide standards can be downloaded from here:
https://bookstore.transportation.org/collection_detail.aspx?ID=116

ⁱⁱ Protected bike lanes – Generally speaking, more than a painted line. Posts/barriers to prevent straying motorized traffic. Check these out:
<http://www.peopleforbikes.org/blog/entry/the-10-best-protected-bike-lanes-of-2013>

ⁱⁱⁱ Complete Streets – provide safe access for all users, including pedestrians, bicyclists, and motorists, as contrasted with “incomplete streets” that are designed with only cars in mind. More info and ideas:
<http://www.smartgrowthamerica.org/complete-streets/complete-streets-fundamentals/complete-streets-faq>

^{iv} We're not making this stuff up. See: “Property Value/Desirability Effects of Bike Paths Adjacent to Residential Areas”
http://www.ce.udel.edu/dct/publications_files/Rpt.%20188%20Bike%20Paths.pdf

Public Meeting
February 27, 2014

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Name: PAUL RIGGS

Email (for project updates/notices only): allisonriggs@peoplepc.com

What is your ZIP code? Home: 77386 Work: 77386

Existing Transportation Choices

What is your primary mode of transportation? car

How many trips a day do you make in your car? Weekday: 5 Weekend: 4

What is your primary travel route to/from work, school, stores, etc? (i.e., Sawdust-Grogans Mill-Lake Woodlands) Riley Fuzzel to west to Rayford -> North to Woodlands -

Where is the most congested area you travel on a daily basis? (This could be an intersection or roadway in or adjacent to the study area): ① Rayford I-45 westbound -
② Riley Fuzzel East bound at Binkham Woods

Are alternative modes of transportation important to you? (Circle one) Yes No
If so, which ones? Transit Bicycle Walking Other _____

COMMENTS
Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

No - not enough safe sidewalks

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

- ① another north/south route besides I-45
- ② Expand Rayford Road

How should we pay for needed mobility improvements?

Gas tax

Provide any additional comments regarding mobility in South Montgomery County. ^{or (Grand Pkwy)}

- Need Northbound flyover from Riley Foyzell to I-45
- open up ~~R~~ Rayford with extra lanes
- add bicycle/pedestrian paths especially near schools
- time the lights on Riley Foyzell
- Don't let developers force a stop light at every subdivision entry (like Fm-1960)

Thank you for your input!

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Currently no. I work downtown and there are no commercial centers within walking distance.

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? Expanding Gosling to at least two lanes on each side

How should we pay for needed mobility improvements? Tax me -> I will pay

Provide any additional comments regarding mobility in South Montgomery County.

Gosling and Kuykendahl are both overloaded. There needs to be action on these roads soon. The commute from Creekside to Woodlands Parkway is brutal every morning. More housing ~~is~~ in Timmon, Liberty Branch and along Gosling is only going to make this worse. We need a solution now!

Thank you for your input!

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Cycling - recreation

Future Transportation Choices The bridge is a safety hazard, a traffic hazard, and a traffic bottleneck.

What is the ONE transportation improvement you would like to see addressed? The bridge is 2-lane. Kuykendahl is now a 4 lane street south and north of the bridge. Another 2 lane bridge

How should we pay for needed mobility improvements? _____ is desperately needed. Both counties should share the costs. The bridge crosses from Harris to Montgomery, as a priority for safety, development, and future growth.

Provide any additional comments regarding mobility in South Montgomery County.

A tremendous amount of development has happened along Kuykendahl and much more is planned. The streets have almost all been widened to allow more traffic but the bottleneck of the bridge remains. Within the past year, the travel time to school has increased from 7 minutes to 20+ minutes starting at 7:25AM. Increasingly, traffic backs up both south and north several times a day and will soon impact Woodlands Parkway. EMS and other services are impacted. This remaining piece of the widening of Kuykendahl is very much needed and must occur

Thank you for your input!

before traffic could be diverted from the Grand Parkway.

Public Meeting
February 27, 2014

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Name: Lisa Blanchard
 Email (for project updates/notices only): lisa@glassmermaid.net
 What is your ZIP code? Home: 77381 Work: _____

Existing Transportation Choices

What is your primary mode of transportation? BIKE
 How many trips a day do you make in your car? Weekday: 0-1 Weekend: _____
 What is your primary travel route to/from work, school, stores, etc? (i.e., Sawdust-Grogans Mill-Lake Woodlands) Grogans Mill — Research

Where is the most congested area you travel on a daily basis? (This could be an intersection or roadway in or adjacent to the study area): Intersection of 45 + Research

Are alternative modes of transportation important to you? (Circle one) Yes No
 If so, which ones? Transit Bicycle Walking Other _____

COMMENTS
Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Yes
1-2/daily Recreation / Grocery / Shop
BANK / LIBRARY

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

Public Transportation

How should we pay for needed mobility improvements?

However we pay for Roads Now.

Provide any additional comments regarding mobility in South Montgomery County.

Transportation to Airport should be included
Hard look at lack of Bike Paths in some areas. Why Bike paths + lanes have disappeared w road widenings. Why some areas lack bike paths altogether - Six Pines (to Research - to Shenandoah Area) then to Prognans Mill. (Bike paths don't connect)

NOT MUCH INFO AT THIS MEETING.
Thank you for your input!

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Yes. Use 16 miles of foot/bike paths every day.

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

Broaden Kuykendahl bridge between Creekside Forest and Flintridge.

How should we pay for needed mobility improvements?

Open to just about any way. Prefer bonds

Provide any additional comments regarding mobility in South Montgomery County.

When Exxon moves in, North South thoroughfares will be a nightmare. The Gosling and Kuykendahl bridges weren't built for the traffic they carry today. I worry about the traffic and the safety.

Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

No

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? *Do away with barriers for HOV lane to allow traffic to move in and out rather than have to go long distances in standard lanes because couldn't exit HOV near destination.*
How should we pay for needed mobility improvements? *Bond issue, tax from auto sales*

Provide any additional comments regarding mobility in South Montgomery County.

Building more roads will NEVER resolve the problems, More roads will only attract more automobile traffic as long as people have no alternatives that are cost effective and save commute time. The entire region needs an integrated system of rail, buses and roads that will allow people to get where they want to go more quickly and cheaper than by auto.

Thank you for your input!

Public Meeting
February 27, 2014

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Name: Gayle Moses

Email (for project updates/notices only): gmoses@consolidated.net

What is your ZIP code? Home: 77385 Work: N/A

Existing Transportation Choices

What is your primary mode of transportation? Auto

How many trips a day do you make in your car? Weekday: 2 Weekend: 1

What is your primary travel route to/from work, school, stores, etc? (i.e., Sawdust-Grogans Mill-Lake Woodlands) SH 242

Where is the most congested area you travel on a daily basis? (This could be an intersection or roadway in or adjacent to the study area): SH 242 at IH 45

Are alternative modes of transportation important to you? (Circle one) Yes No
If so, which ones? Transit Bicycle Walking Other _____

Please Complete Other Side

COMMENTS
Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

No

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? *Flyovers @ SH 242 at IH 45 being built - should help that intersection*

How should we pay for needed mobility improvements? *Sorry, couldn't even guess*

Provide any additional comments regarding mobility in South Montgomery County.

If you plan a route, I hope you physically check the area to be used - not just the maps of the area. The flyovers come down in an area that will cause confusion away from IH 45. Anywhere you look for appropriate routes, there will be problems not seen on maps.

Thank you for your input!

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

WALK/RUN DAILY AT OR NEAR LAKE PALOMA

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? TWO SIMILAR EQUALLY PRIORITY. ADDITIONAL BRIDGES ARE NEEDED BOTH ON KUYKENDALL AND GOSLING.

How should we pay for needed mobility improvements? MY UNDERSTANDING IS THAT MONTGOMERY COUNTY SHOULD PASS A BOND AND PRECINCT 4'S JUDGE CREVE NEEDS TO LOCATE HARRIS COUNTY FUNDING. DO NOT GO FOR FEDERAL FUNDING AS THIS COULD

Provide any additional comments regarding mobility in South Montgomery County. IF BRIDGES CANNOT BE BUILT SWAN, THEN THE WOODLANDS + HARRIS COUNTY SHOULD HALT ISSUING ANY MORE BUILDING PERMITS BECAUSE THE AREA CANNOT HANDLE EXISTING TRAFFIC. ADD YEARS TO THE PROCESS.

Thank you for your input!

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

None ... just walk our streets. They are very seldomed traveled, safe, and ... Free

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? continue

Woodlands Pkwy to Imperial Oaks

How should we pay for needed mobility improvements? I don't have enough

info to say ... By all of the improvements I see currently in effect, I feel we have the money; just prioritize - NO TAX Increase

Provide any additional comments regarding mobility in South Montgomery County.

When we begin, do not just solve today's issues, plan ahead for at least 5 years. That way, we will not be effected but once

When expanding Robinson, use median islands, like 'Imperial Oaks' ... Thus, it will look o'ed like a subdivision

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

walk The Woodlands bike paths to grocery store

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? TOTAL SEPARATION OF RAIL & CAR TRAFFIC around Oak Ridge North

How should we pay for needed mobility improvements? Raise gas taxes - it's a small enough % of total gas price

Provide any additional comments regarding mobility in South Montgomery County.

- ① Require developers to contribute ^{substantially} to alleviating congestions at intersections they affect. Case in point: The complex at S. Millbend & Sawdust should pay for right turn lane at the S. end of S. Millbend. Their customers (though few) block much right-turn traffic.
- ② Use much smarter traffic light control
- ③ DO NOT SELECT LOWEST-BID CONTRACTORS! Case-in-point: Woodlands Parkway bet. Grogan's Mill & E. Panther Creek

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Nope! I have no intentions- I'm a Texan and I love my vehicles!

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? _____

REDUCE TRAFFIC ON ROBINSON Rd - put up a sound wall next to freeway - the noise level in my house surpasses ALL safe decibel levels.

How should we pay for needed mobility improvements? _____

Ask Exxon for the money! Better question, what is the federal budget being used for transportation?

Provide any additional comments regarding mobility in South Montgomery County.

The I-45 flyover and the expansion of lanes on I-45 has forced us to have triple pane windows in our house. We have had an environmental study performed at our house and the decibel levels of noise exceeds any safe level. Also Robinson Rd. should not be considered for a major east/west corridor. What's wrong with Hanna Rd connecting with Tamina? Absolutely no one cares about the residents of ORN. I understand, and applaud progress, but not at the expense of homes and citizens. I have little faith that any of our comments will even be taken into consideration.

Thank you for your input!

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Name: Jim Coffey
Email (for project updates/notices only): jcoffey@shrieve.com
What is your ZIP code? Home: 77375 Work: 77380

Existing Transportation Choices

What is your primary mode of transportation? car
How many trips a day do you make in your car? Weekday: 10 Weekend: 3

What is your primary travel route to/from work, school, stores, etc? (i.e., Sawdust-Grogans Mill-Lake Woodlands)
Woodlands -> Kuykendahl -> Lake Woodlands (or Woodlands Parkway - Gostling) -> Lake Front Circle

Where is the most congested area you travel on a daily basis? (This could be an intersection or roadway in or adjacent to the study area): Kuykendahl Bridge before Flintridge

Are alternative modes of transportation important to you? (Circle one) Yes No
If so, which ones? Transit Bicycle Walking Other

COMMENTS
Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

Expand Kuykendahl Bridge & to Kuykendahl Rd to 4 lanes

How should we pay for needed mobility improvements?

County Funds, Taxes

Provide any additional comments regarding mobility in South Montgomery County.

Thank you for your input!

Public Meeting
February 27, 2014

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

walk & bicycle around Timarron

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? an additional bridge on Kuykendahl to Woodlands Pkwy!!!!

How should we pay for needed mobility improvements? increase taxes or a bond issue

Provide any additional comments regarding mobility in South Montgomery County.

The roads in Creekside / Timarron are extremely congested already & absolutely cannot handle an additional 1,080 homesites per Economic outlook conference. Kuykendahl needs to be widened from Woodlands Pkwy to south border of Creekside to accommodate residential + commercial traffic. A new bridge over Spring Creek on Kuykendahl is urgent. Traffic light at Timarron + Kuykendahl needs to be activated NOW! There are too many accidents at that intersection - almost daily!

Thank you for your input!

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

There is no bicycle lane on Kuykendahl from Creekside. I occasionally use the Ride Transit to go to work downtown Houston

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed?

Traffic flow on Kuykendahl from Creekside Park. In the am + evenings the traffic is horrendous + dangerous.

How should we pay for needed mobility improvements?

Whatever means necessary. I would definitely support a tax increase for a new bridge + wider lanes on Kuykendahl

Provide any additional comments regarding mobility in South Montgomery County.

Meeting Purpose

Thank you for attending the South County Mobility Plan public meeting. This meeting will provide you with background information on the study as well as an overview of the existing roadway and intersection conditions in the study area. As part of the study, we are seeking your feedback as to the mobility problems that you regularly encounter.

Study Purpose

The South County Mobility Plan is a comprehensive transportation study will assess current conditions and make recommendations for future transportation needs. This will allow the local governments to prioritize needs that are specific to their constituents and improve access to jobs, homes and services.

Please answer each of the questions below with respect to the **South County Mobility Study Area**. In the comment sections provided, please provide additional information that you would like included.

Do you currently bike, walk and/or use transit for work commute, leisure, recreational or other purposes (going to/from park, grocery store, school, etc.)? If so, how often and for what reason?

drive car to church, shop + dr. appts.

Future Transportation Choices

What is the ONE transportation improvement you would like to see addressed? Signals
along Robinson Rd. -

How should we pay for needed mobility improvements? bonds

Provide any additional comments regarding mobility in South Montgomery County.

I would have thought a raised monorail transit system would
work well with traffic in + out of Houston or even from front
to back of the Woodlands.

I-45 feeders need signals to allow congestion coming off
of Woodlands PKwy going North + Robinson Rd going South
on I-45 ! They would help!

Thank you for your input!

Cyclists' Concerns and Input

Pt.1 – Where we want to go (for starters)

- Create/maintain E-W (I-45 to SH 2978) and N-S (SH 242 to Creekside) bicycle friendly corridors

Pt. 2 – What's bicycle friendly?

- AASHTO approved safe bike lanes (for starters)
- “Protected” bike lanes (better yet)
- Sidewalks (pathways) are NOT the answer – a mixture of strollers, skaters, runners and walkers creates a high risk of bike/bike and bike/pedestrian collisions and injuries.

Pt. 3 – Incorporate “Complete Street” * concepts in all new transit construction

- Encourages bike commuting to work. Many employees reside within 10 miles of 4 major employment centers in TW (Medical – Pinecroft/Research Forest/242; Tech – Technology Forest; Retail/Office – Town Center and soon Hughes Landing – Lake Woodlands Drive; Energy – Research Forest/Technology Forest)
- More bicycle commuting lessens traffic congestion
- Bicycling enhances wellness

Pt. 4 – Bicycling is good for business/property values.

- Savvy companies seeking to attract Millennials and Gen X-ers locate in areas with bicycle friendly commuting options
- Workers who bike to work are healthier, leading to reduced health care/insurance costs
- Property values are increased by adjacent/nearby bike paths*
- Retailers and restaurants in bicycle friendly areas benefit from post-ride refreshment seekers. Establishes an “urban oasis” sense of community. Smaller retail purchases but more frequent return visits fosters merchant-customer loyalty. Less parking lot congestion.

Pt. 5 – Protect what we have left.

- Stop widening roads at the expense of the shoulders. Major parts of Woodlands Parkway and Research Forest no longer have road shoulders. We fear for Lake Woodlands Drive. Many areas with the highest employment/retail density are inaccessible by road shoulders.

Comments Summary

Economic Development

Would you support bonds for transportation improvement projects that would enhance economic development?

- Yes (7)
- Yes, if there is a specific plan
- Maybe (2)
- It depends upon what improvements are being implemented

How important is it for you to live in a place that you can walk/bike to important destinations such as shopping, employment, school and entertainment?

- Very important (4)
- Very – but things are too spread out to make it realistic
- Important (2)
- Not really important – I drive
- It's nice
- Not important
- It's valuable, year round we live in Houston – it's hot.

Additional comments:

- Development is important to our business as we provide quality early childhood education
- Needing a procedure to separate the types of traffic. Rayford Road and Sawdust entrance to utilize sides of pipeline easements.
- Is there a way to improve the flow of traffic that encourages other modes of transportation like smaller cars, pedestrian and biking off the main feeders? Then on the main feeders encourage destination travel behavior vs. intercity behavior. Maybe a park and ride on east side of the freeway close to Hardy or Grand Parkway.
- In addition to issues on "technical approach" map, analyze major intersections in the Woodlands for improved capacity at Woodlands Parkway/Woodloch Forest; Woodlands Parkway/Six Pines; Woodlands Parkway/Gosling; Woodlands Parkway/Kuykendahl

Current Transportation Conditions

What is the primary transportation choice (car, travel, walk, bicycle) used by your customers?

- Car (11)
- Truck (2)
- School van (Drop off and pick up of children)
- Transit
- Walk
- Bicycle

Of the mobility improvement ideas presented (including innovative roadway and intersection improvements, pedestrian and bikeway facilities, roadway connectivity, railroad crossing safety, corridor land re-development and access management), which do you favor the most and why?

Comments Summary

- Relief of congestion at Rayford/Sawdust or I-45. Also Robinson Road and Hannah Road. Rayford and Hannah.
- Intersection improvement
- Expansion of Gosling
- A north-south route from Hwy 242 to FM 1488 (Either Gosling or north from Lone Star College-Montgomery to FM 1488)
- I-45 interchange improvements and extension of Hardy corridor north > required to accommodate increased traffic on I-45
- Parking in The Woodlands
- Roadway connectivity and widening intersections to have traffic flow.
- None. Finding easement that can be used to help construction.

Which do you favor least and why?

- Extension of Woodlands Parkway. Wait 15-20 years.
- Woodlands Parkway West through Magnolia. Congestion on FM 2978 is unbearable – we don't need more! Too much development and not enough lanes to carry traffic on FM 2978.
- Pedestrian and bikeway – we have some. I just do not think year round the utilization would be maximized. It's too hot. This is nice to have, but it will not get folks out of their cars in the number we need to transform to alleviate the congestion.
- All are beneficial and valuable to consider

What are the most significant bottlenecks that you, your employees or customers typically face?

- Alternate routes north-south, north of Research Forest (both east and west of I-45). Completion of routes south of Woodlands to 4 lanes, Gosling, Kuykendahl and Sawmill.
- Grogans Mill at Sawdust
- Rayford and Sawdust
- Rayford and Robinson Roads
- Get to or in and out of driveways, also getting around the overpass
- I-45 at SH 242 (flyover should help, but it will still be crazy). All along SH 242 near the college is crazy, especially when high school and college students are leaving
- Eastbound to northbound; I-45 interchange at Research Forest; eastbound to southbound; northbound to westbound; Woodlands Parkway interchanges at Woodloch Forest, Six Pines, Gosling, Kuykendahl
- Congestion around Conroe
- I-45, Woodlands Parkway, Gosling if they go that way

What ONE area would you like to see improved? What are your recommendations?

- A north-to-south road/connector on the east side of I-45 (2)
- Improved coordination among the funding and responsible organizations
- Rayford. Using easements unapproved to place flyovers using pipeline easements
- Expansion of Gosling would help release traffic for north and south

Comments Summary

- Gosling at SH 242 (extend Gosling north to FM 1488 or Loop 336)
- Change traffic signals from protected left turn to unprotected left on major collectors and local streets.
- We need to get Gosling and Kuykendahl project moving so we have north south arterial roads.

How important are alternative modes of transportation (bike, pedestrian, transit) to your business?

- Not (5)
not very for business issues; not much at all, not very important, not important (2)
- Very (2)
walking, biking, blvd or curb appeal important; especially in Conroe at our new center on FM 3083
- Important (2)
particularly within Town Center; All the mobility ideas improve quality of life and are important.
- Transit – shuttles to the new ExxonMobil Campus, that's where our campus will be. 15,000 commuters. Utilize Woodlands Express. Many folks work in Downtown, Galleria, Greenspoint. We need to advertise this means of transportation. I am sure, if you asked residents of the Woodlands what the schedule is, very few would know. Plus we need to promote this for Texan Games, Rodeo, Astros, get people engaged. We have this wonderful service and infrastructure in place – it is just not utilized enough. A consistent schedule, expand hours. In the beginning it may not be always profitable, while it is already in place.

Provide any additional information regarding to transportation and mobility in South Montgomery County.

- Analyze alternate means of funding mobility. What we have isn't working. Equal distribution of funds pushes money where it isn't needed today.
- Our parents pick up and drop off morning and late afternoon. Plus our bus runs to pick up after school children. Personally I live in Spring Trails off Riley Fuzzel and am concerned about the plans I have seen that puts our subdivision on a feeder so there will be only one way to turn exiting and one way to turn from. We will have to make U-turns all the time to get home or leave. Railroad crossing at Hannah and Richard Road. Planning to build near tracks and concerned about train traffic there at busy times of morning and afternoon.
- In the area you will be able to use pipeline easements in the Woodlands, Oak Ridge, Imperial Oaks and others. This is doable.
- The major concern I have is what decision is made regarding Robinson Road. Oak Ridge North has completed a long-range planning study and passed new zoning regulations that have a significant impact on our church and school. I would like to be involved in any way

Comments Summary

in discussions involving Robinson Road, especially since the city has plans to redirect Robinson through the middle of our property/church/school. Most important to us is the time for planning. When will Robinson Road be addressed? What will be the plan for the road? How can we receive "compensation" if we are displaced in such a way that we are able to relocate without any interruption in service to our church and school families?

- With 80,000 people currently on the east side of I-45 (Oak Ridge/Rayford Corridor and north to SH 242 area) there is immediate need for north/south traffic flow from Sleepy Hollow to Riley Fuzzel. Also along the railroad to allow other ways to get to schools on right side of the railroad track.
- FM 2978 is a growing problem. Multiple apartments going in around Woodlands Parkway, but not enough lanes to carry the additional traffic.
- The best cost/benefit decisions need to be identified and implemented.
- I believe when you are finished with the study and come up with the needs, the community will support a bond. A bond with no direction, will have limited support. A bond with a solid plan will be passed.

Public Meeting #2 Summary Report

The second public meeting for the South County Mobility Plan was convened to provide a list of priority projects for the study area based on research conducted by the project team and input from the Steering Committee. It was held:

Thursday, September 25, 2014
6-8 p.m.
Shenandoah Municipal Complex
29955 I-45 North, Shenandoah, Texas 77381

Meeting Notification and Publicity

Notifications of public meetings took advantage of a broad spectrum of print and electronic media to reach target audiences:

- State and federal elected officials notification email from Alan Clark.
- Legal ads in Houston Chronicle, Your Houston News Publications (Humble Observer, Woodlands Villager, East Montgomery Observer and Conroe Courier).
- News releases to above publications plus woodlandsonline.com; Real Estate Bisnow; Community Impact News: Woodlands; The Villager; and The Paper.
- H-GAC: project website, and September issue of Vision e-newsletter.
- Website postings, Facebook pages and e-blasts to member/distribution lists of project partners and Steering Committee members, The Woodlands Area Chamber of Commerce, Economic Development Partnership and The Woodlands village associations.
- Inserts to Shenandoah water bills to residents and businesses.
- Email to attendees of past meetings, survey participants and others who have expressed interest in the study.

Copies of the notices, website postings and articles are included in this summary report.

Registration

Meeting attendees that registered on the sign-in sheets included:

- 6 elected officials
- 6 steering committee members
- 4 media
- 114 members of the public
- 8 team members

Sign-in sheets are included in this summary report.

Public Meeting #2 Summary Report

Meeting

The meeting was conducted in a combination open house and presentation format. Sign-in tables greeted attendees at the front door. The City of Shenandoah provided refreshments for attendees including beverages and pastries. Informational boards conveyed the study area, intersection improvements and proposed network of roadways. The open-house portion began at 6 p.m. and the first presentation began around 6:30. The presentation was repeated again at 7:15 p.m. A table with handouts including maps, a brochure outlining the purpose of the study and a list of projects was available to those attending.

The presentation, delivered by H-GAC staff members Carlene Mullins, David Wurdlow and Thomas Gray, was displayed on two large screens at the front of the room. The Steering Committee used Shenandoah's City Council seating area and served as a panel for the question and answer session at the end of the presentation. David Wurdlow with H-GAC moderated questions from cards completed by attendees. Comment cards were also available at the sign-in and handouts tables.

Questions and Comments

A total of 2 comments cards and 19 questions for the panel were completed. An additional 4 comments were made on the website and 1 comment was received via e-mail. A tally of the comments, along with verbal comments made to team members during the meeting, is in an appendix to this summary report.

Do you have a question you would like the panel to address at tonight's meeting?

Topic Regarding:

Street

Intersection

Bicycle/Pedestrian

Other

Question:

- = As a resident of Imperial Oaks since 1997, I've seen much of the dramatic growth in our area, and I've also seen some very good steps taken to alleviate the traffic issues in South County.
- One of these welcome improvements has been the installation of the flashing yellow signals at various intersections in the area. However, I'm perplexed that a flashing yellow signal has NOT been installed at the Rayford Road (EB) to Imperial Oaks Boulevard (WB) intersection. May I ask if this is planned for the future, and if not, why not?

Thank you,
